Elodie Douarin, Oleh Havrylyshyn

Transition And Economics Politics Markets And:

Transition and Economics Gérard Roland, 2000 The transition from socialism to capitalism in former socialist economies has transformed the economic structure This book provides an overview of research on the issues raised by the shift from collective to private ownership

Political Economy of Transition and Development Nauro F. Campos, Jan Fidrmuc, 2003-11-30 Political Economy of Transition and Development collects the proceedings of an international conference that brought the leading thinkers in this field to the Center for European Integration Studies of the University of Bonn in May 2002 The contributions analyze the various interactions between institutions policy choices economic developments and political outcomes in transition and developing countries The first five chapters give a relatively broad assessment of the various reform paths and outcomes in the transition and developing countries The remaining eight chapters proceed to analyze important aspects of transition such as voting behavior political regime choice corruption social capital growth and inequality and EU enlargement The resulting volume thus combines a bird's eye perspective with a relatively narrow focus on selected key issues pertaining to the ongoing transition process in Central and Eastern Europe

Labor Markets and Social Policy in Central and Eastern Europe N. A. Barr, 2005-01-01 Labor Markets and Social Policy in Central and Eastern Europe summarises social policy reform during the transition and EU accession and analyses the social policy challenges which continue to face both old and new member states Specifically the book amplifies two sets of arguments First social policy under communism was in important respects well suited to the old order and precisely for that reason was systematically badly suited to a market economy Strategic reform directions thus followed from the nature of the transition process and from constraints imposed by EU accession Secondly successful accession is not the end of the story economic and social trends over the past 50 years are creating strains for social policy which all countries old and new members will have to face This book will be of interest to readers interested in social policy particularly those with an interest in the process of post communist transition in EU accession and in future social policy challenges for the wider Europe It should be of interest to academics in departments of economics social policy and political science and to policy makers including government advisers and civil servants

The Oxford Handbook of Comparative Politics Carles Boix, Susan Carol Stokes, 2007 The Oxford Handbooks of Political Science is a ten volume set of reference books offering authoritative and engaging critical overviews of the state of political science Each volume focuses on a particular part of the discipline with volumes on Public Policy Political Theory Political Economy Contextual Political Analysis Comparative Politics International Relations Law and Politics Political Behavior Political Institutions and Political Methodology The project as a whole is under the General Editorship of Robert E Goodin with each volume being edited by a distinguished international group of specialists in their respective fields The books set out not just to report on the discipline but to shape it The series will be an indispensable point of reference for anyone working in political science and adjacent disciplines The Oxford Handbook of Comparative Politics

offers a critical survey of the field of empirical political science through the collection of a set of chapters written by 47 top scholars in the discipline of comparative politics Part I includes chapters surveying the key research methodologies employed in comparative politics the comparative method the use of history the practice and status of case study research the contributions of field research and assessing the possibility of constructing a science of comparative politics Parts II to IV examine the foundations of political order the origins of states and the extent to which they relate to war and to economic development the sources of compliance or political obligation among citizens democratic transitions the role of civic culture authoritarianism revolutions civil wars and contentious politics Parts V and VI explore the mobilization representation and coordination of political demands Part V considers why parties emerge the forms they take and the ways in which voters choose parties It then includes chapters on collective action social movements and political participation Part VI opens up with essays on the mechanisms through which political demands are aggregated and coordinated This sets the agenda to the systematic exploration of the workings and effects of particular institutions electoral systems federalism legislative executive relationships the judiciary and bureaucracy Finally Part VII is organized around the burgeoning literature on macropolitical economy of the last two decades

The Palgrave Handbook of Comparative Economics Elodie Douarin, Oleh Havrylyshyn, 2021-02-13 This book aims to define comparative economics and to illustrate the breadth and depth of its contribution It starts with an historiography of the field arguing for a continued legacy of comparative economic systems which compared socialism and capitalism a field which some argued should have been replaced by institutional economics after the fall of the Berlin Wall The process of transition to market capitalism is reviewed and itself exemplifies a new combination of comparative analysis with a focus on institutional development Going beyond chapters broadening the application of comparative analysis and applying it to new issues and approaches including the role and definition of institutions subjective wellbeing inequality populism demography and novel methodologies Overall comparative economics has evolved in the past 30 years and remains a powerful approach for analyzing important issues

Multi-faced Transformations Elena Danilova, Alina Zubkovich, 2015-10-19 Multi faced Social Transformations Challenges and Studies brings together the proceedings of the 7th Slovenian Social Science Conference The Challenges of Social Transformations held in September 2014 It was organized by the School of Advanced Social Studies SASS the Slovenian National Committee of the Management of Social Transformations programme MOST and the Slovenian National Commission for UNESCO The multidisciplinary contributions presented here analyse various aspects of the economic social and cultural transformations that accompany the contemporary globalized world The book consists of four sections dealing with particular areas of transformations These include a range of political economic and cultural dimensions that are observed from the macro level in social systems and structural changes to the micro level in aspects of individuals lives The book will be of interest for academics in the field of social sciences as well as for civil society activists and policy makers The frames of the

transformations are not limited to the European space and provide a more global perspective **Economics of**

Institutional Change Elodie Douarin,Tomasz Mickiewicz,2017-10-24 This book a third edition has been significantly expanded and updated It revisits the process of institutional change its characteristics determinants and implications for economic performance New chapters address the significance of Post Communist transition the differences and importance of initial conditions in institutional building and social norms values and happiness Other chapters have been expanded to include for example a focus on the Washington consensus commentary on the 2008 financial crisis state capacity and corruption and new findings on redistribution and inequality With specific focus on Central Europe Eastern Europe and Central Asia this revised edition examines the process of development and its interdependence with institutions

International Handbook on Privatization David Parker,David S. Saal,2003-01-01 Privatization has dominated industrial restructuring programs since the 1980s and continues to do so This authoritative and accessible Handbook considers all aspects of this key issue including the theory of privatization privatization in transition developed and developing economies as well the economic regulation of privatized industries *Dictionary of Contemporary Chinese Economics* Hong Yinxing,2025-05-26 This Dictionary provides the theoretical summary and conceptual framework around the milestones obtained through Chinese reform and development and highlights the research achievements of Chinese economics over the past 40 years It also presents Chinese economics to the world featuring the Belt and Road Initiative and the Chinese theory and Chinese system to be known and shared internationally with a Chinese intellectual foundation It sets out to frame the theoretical achievements of extraction and summary of practice experience from Chinese reform and development The choice of entries in the Dictionary seeks to embody the very Chinese characteristics of economics and the combination of theory and practice is illuminated Furthermore the dictionary explores examples of scientific achievements that traditional economics has brought forward and how they fit and unify within both a Chinese as well as an international context

Harnessing Post-conflict Transitions Nicholas J. Armstrong,Jacqueline Chura-Beaver,2010 This monograph addresses the challenging topic of transition in post conflict stability operations and is intended for a wide audience that includes military and civilian policymakers international development experts and scholars in academe It is a primer systematic review and comprehensive assessment of the fields of research and practice It presents and appraises the major lenses process authority transfer phasing and end state categories war to peace power societal political democratic security and economic approaches and tools under which post conflict transitions are conceived It lays the groundwork for both future research and greater collaboration among diverse international and local actors who operate in post conflict environments to develop a comprehensive definition of transition and adequate tools to address all facets of the concept It provides recommendations for future research and improved transition policy which include cross institutional political security economic and multi level local regional national studies that explore the interdependencies between simultaneous

transitions underlying assumptions of current transition tools and indicators relationships between transition and institutional resilience and thresholds and tipping points between transition phases
