Witchcraze A New History Of The European Witch Hunts:

Witchcraze Anne L. Barstow, 1995-06-24 In the sixteenth century a rise in sexual violence in European society was exacerbated by pressure from church and state to change basic sexual customs As the centuries since have shown escalating levels both of violence general and sexual and of state control the witchcraze can be considered a portent even a model of some aspects of what modern Europe would be like Over three centuries approximately one hundred thousand persons most of whom were women were put to death under the guise of witch hunts particularly in Reformation Europe The shocking annihilation of women from all walks of life is explored in this brilliant authoritative feminist history Anne Llewellyn Barstow Barstow exposes an unrecognized holocaust the ethnic cleansing of independent women in Reformation Europe and examines the residual attitudes that continue to influence our culture Barstow argues that it is only with eyes sensitive to gender issues that we can discern what really happened in the persecution and murder of these women Her sweeping chronicle examines the scapegoating of women from the ills of society investigates how their subjugation to sexual violence and death sent a message of control to all women and compares this persecution of women with the enslavement and slaughter of African slaves and Native Americans Ultimately Barstow traces the current backlash against women to its gynophobic torture filled origins In the process she leaves an indelible mark on our growing understanding of the legacy of violence against women around the world Postcolonial Imagination and Feminist Theology Pui-lan Kwok, 2005-01-01 The burgeoning field of postcolonial studies argues that most theology has been formed in dominant cultures laden intrinsically with imperializing structures An essential task facing theology is thus to decolonize the mind and free Christianity from colonizing bias and structures Here in this truly groundbreaking study highly respected feminist theologian Kwok Pui lan offers the first full length theological treatment of what it means to do postcolonial feminist theology She explains her methodological basis and explores several specific topics including Christology pluralism and creation **The European Witch-Hunt** Julian Goodare, 2016-05-12 The European Witch Hunt seeks to explain why thousands of people mostly lower class women were deliberately tortured and killed in the name of religion and morality during three centuries of intermittent witch hunting throughout Europe and North America Combining perspectives from history sociology psychology and other disciplines this book provides a comprehensive account of witch hunting in early modern Europe Julian Goodare sets out an original interpretation of witch hunting as an episode of ideologically driven persecution by the godly state in the era of the Reformation and Counter Reformation Full weight is also given to the context of village social relationships and there is a detailed analysis of gender issues Witch hunting was a legal operation and the courts rationale for interrogation under torture is explained Panicking local elites rather than central governments were at the forefront of witch hunting Further chapters explore folk beliefs about legendary witches and intellectuals beliefs about a secret conspiracy of witches in league with the Devil Witch hunting eventually declined when the ideological pressure to combat the Devil s allies slackened A final

chapter sets witch hunting in the context of other episodes of modern persecution This book is the ideal resource for students exploring the history of witch hunting Its level of detail and use of social theory also make it important for scholars and researchers

The Salem Witchcraft Trials Peter Charles Hoffer, 1997 Historian Peter Charles Hoffer reexamines a notorious episode in American history and presents many of its legal details in true perspective for the first time Hoffer also shows how rights we take for granted today did not exist in colonial times and he demonstrates how these cases relate to current instances of children accusing adults of abuse

The Witch-hunt in Early Modern Europe Brian P. Levack, 1995 This book first appeared in 1987 It focuses on the great age of witch hunting in Europe and also in colonial America between 1450 and 1750 In these years more than 100 000 people most of them women were prosecuted by secular and ecclesiastical courts across Europe for allegedly practising harmful magic and worshipping the Devil The book sets out to answer the major questions that this strange and terrible phenomenon evokes today Why did the trials take place Why did they suddenly proliferate in Europe at this time How many trials were there and where and what were the outcomes Why were more witches prosecuted in some countries than others Who were the accused and who were their accusers Why after more than 200 years of vigorous activity did the trials eventually dwindle away What did they tell us about the social economic and political history of early modern Europe and in particular the position of women within it In this timely Second Edition Brian Levack now incorporates the latest scholarship on the subject

The Witch Studies Reader Soma Chaudhuri, Jane Ward, 2025-02-21 Stories about witches are by their nature stories about the most basic and profound of human experiences healing sex violence tragedies aging death and encountering the mystery and magic of the unknown It is no surprise then that witches loom large in our cultural imaginations In academia studies of witches rarely emerge from scholars who are themselves witches and or embedded in communities of witchcraft practitioners The Witch Studies Reader brings together a diverse group of scholars practitioners and scholar practitioners who examine witchcraft from a critical decolonial feminist perspective that decenters Europe and departs from exoticizing and pathologizing writing on witchcraft in the global South The authors show how witches are keepers of suppressed knowledges builders of new futures exemplars of praxis and theorists in their own right Throughout they account for the vastly different national political economic and cultural contexts in which the witch is currently being claimed and repudiated Offering a pathbreaking transnational feminist examination of witches and witchcraft that upends white supremacist colonial patriarchal knowledge regimes this volume brings into being the interdisciplinary field of feminist witch studies Contributors Maria Amir Ruth Asiimwe Bernadette Barton Ethel Brooks Shelina Brown Ruth Charnock Soma Chaudhuri Carolyn Chernoff

The Rule of Mars Cristina Biaggi, 2005 An anthology of the best work by leading scholars on the subject of patriarchy how it came to be the dominant social system how it has been maintained and its impact on contemporary life In today s world it is important to understand the underlining dynamics of our political and social life so that change can be relevant and substantial This outstanding collection of 32 essays from renowned scholars artists and activists is a fresh approach to a topic with ancient roots Patriarchy is not the inevitable outcome of civilization these authors contend but rather a deliberately chosen social structure with a beginning a middle and hopefully an end This diverse collection of provocative authors each takes her or his own approach to the material at hand Together they examine the possible origins of patriarchy such as the collapse of the fertility of the once fertile crescent to the loss of land in the great Black Sea flood They examine the evidence of ancient cultures based on equality and a reverence for both genders contrasting that with the contemporary patriarchy that brings so much strife to our world And they bring hope with thoughtful suggestions for real change so that humankind can once again live in equality Publisher s website

In Search of Peace and Prosperity Hartmut Lehmann, Hermann Wellenreuther, Renate Wilson, 2000 This volume brings together essays by leading German and American historians on the subject of the eighteenth century German emigration Scholars have traditionally studied the nineteenth century when the overwhelming majority of German emigrants came to the New World In this book contributors focus on an earlier period when Germans were moving to a variety of destinations Russia Prussian Lithuania and various other German territories as well as North America What drove men and women from different regional and social backgrounds to leave

their homes during this time Some migrations were forced as for the Mennonites the Salzburger emigrants and the French Huguenots some were voluntary and determined by the wish for one's own land and greater social and economic opportunity In all groups religion was a prominent motivator and primary element of social identification and cohesion Inevitably migrants carried with them traditional skills and other indispensable cultural baggage A key strength of this book is that contributors emphasize the mutual exchanges that occurred among cultures In *Search of Peace and Prosperity* grew out of a conference at Penn State University under the sponsorship of the German Historical Institute in Washington D C
