Primary Science: Understanding the Climate Crisis Peter Loxley,2022-09-26 Big Ideas in Primary Science

Understanding the Climate Crisis takes a fresh approach to learning the science of climate change It combines new thinking in science teaching using big ideas with our growing need to look after our planet and encourages children to learn from what scientists have to say about issues that will impact their lives today and in the future The book offers primary teachers the subject and pedagogical knowledge as well as the confidence they need to integrate the seeds of big ideas into their curriculum It provides models of good practice which exemplify how primary aged children can work towards understanding

some of science's big ideas and engage with important issues related to climate change. There are also opportunities for children to develop skills and understanding from other curriculum areas such as geography, design, technology, and art. The easy-to-use book covers topics such as Weather, Climate, Climate change, Impact of the climate crisis on our lives, Impact of the climate crisis on wildlife, The world we must create, Taking climate action. By making the ideas their own, children can develop informed ways of thinking about issues related to climate change and feel empowered to act in ways which can make a difference. Full of ideas about the climate crisis, *Big Ideas in Primary Science* is a comprehensive, valuable, and essential resource for all teachers of primary science.
