[Think Differently About Learning](#) Maren Goerss, Angela Sizer, 2024-06-18 Hosts of the Homeschool Unrefined Podcast show you how to let go of traditional measures of success and instead measure learning by curiosity, joy, self-regulation, and critical thinking. Children deserve more than the systems we're currently using to educate them. Hardworking teachers, diligent administrators, and devoted parents are trying their best in an outdated system that isn't meeting our children's complex needs. Instead, imagine a different way to learn. With helpful practical tips and anecdotes from homeschooling families, this guide covers all you need to know about learning differences, mental health, devices, and technology, socialization, and more. It's for traditional school families who are learning to balance outer expectations with their own needs with a different way of learning. It's for homeschool families who are looking for a more inclusive, supportive, and authentic approach. Angela and Maren pair their years of teaching in a variety of different schools with their years of homeschooling their combined seven children. As they know first-hand, any parent, child, or family can thrive as they unlearn old ways, lean into their own strengths, and celebrate unconventional wins.
