Why Niebuhr Matters Charles Lemert, Prof Charles Lemert, 2011-11-29

Reinhold Niebuhr 1892 1971 was a Protestant preacher an influential religious thinker and an important moral guide in mid twentieth century America But what does he have to say to us now In what way does he inform the thinking of political leaders and commentators from Barack Obama and Madeleine Albright to David Brooks and Walter Russell Mead all of whom acknowledge his influence In this lively overview of Niebuhr's career Charles Lemert analyzes why interest in Niebuhr is rising and how Niebuhr provides the answers we ache for in the face of seismic shifts in the global order In the middle of the twentieth century having outgrown a theological liberalism Niebuhr challenged and rethought the nonsocialist Left in American politics He developed a political realism that refused to sacrifice ideals to mere pragmatism or politics to bitterness and greed He examined the problem of morality in an immoral society and reimagined the balance between rights and freedom for the individual and social justice for the many With brevity and deep insight Lemert shows how Niebuhr's ideas illuminate our most difficult questions today

Sociological Social Work Priscilla Dunk-West, Fiona Verity, 2016-04-01

Sociological social work is a lifelong social work practice which is animated by a sociological perspective Social workers shorthand orientations such as strengths perspective task centred or humanistic to name but a few as a way to identify their

philosophical and theoretical approaches in professional life Whilst some texts have examined sociology for social work this text instead proposes that sociological social work is a legitimate and theoretically rich orientation and this book demonstrates what sociological social work looks like in our rapidly changing world This text will equip students and practitioners with a way to think sociologically not just while they are studying but as an ever present reference for making sense of social work purpose and how this is realised in a transforming world This follows an established tradition in social work literature but this book elevates and names the importance of this approach which we argue is critically needed if social work is to achieve its agenda in transformative social political economic and environmental contexts The current landscape in which we live is one that is characterised by rapid changes which have implications for the life experiences of those with whom social workers work social justice advocacy agendas and for fulfilling the purpose of social work more generally This book is essential reading for those looking to keep up with these changes
