the first time is seldom or never a quite comfortable operation and hence Helen was very near becoming actually uncomfortable She was even on the borders of making the unpleasant discovery that the business of life and that not only for North Pole expeditions African explorers pyramid inspectors and such like but for every man and woman born into the blindness of the planet is to discover after which discovery there is little more comfort to be had of the sort with which Helen was chiefly conversant But she escaped for the time after a very simple and primitive fashion although it was indeed a narrow escape Let me not be misunderstood however and supposed to imply that Helen was dull in faculty or that she contributed nothing to the bubbling of the intellectual pool in the social gatherings at Glaston Far from it When I say that she came near thinking I say more for her than any but the few who know what thinking is will understand for that which chiefly distinguishes man from those he calls the lower animals is the faculty he most rarely exercises True Helen supposed she could think like other people because the thoughts of other people had passed through her in tolerable plenty leaving many a phantom conclusion behind but this was THEIR thinking not hers She had thought no more than was necessary now and then to the persuasion that she saw what a sentence meant after which her acceptance or rejection of what was contained in it never more than lukewarm depended solely upon its relation to what she had somehow or other she could seldom have told how come to regard as the proper style of opinion to hold upon things in general
