[Facing Our Futures](#) Nikolas Badminton,2023-02-16 A fascinating insight into how professionals and businesses can develop their foresight and strategy to ensure that they are prepared for an

unpredictable future Businesses organizations and society at large are all subject to unforeseeable events and incidents that often have a dramatic impact upon prosperity and profit Due to their unpredictable nature business leaders and executive teams are unable to prepare for these specific events But through innovation strategizing and an open minded approach they can restructure their organization and practices in order to mitigate or even take advantage of the impact of such events In Facing Our Futures Nikolas Badminton draws upon his decades of experience as a consultant and futurist to provide readers with the skillset and outlook they need to prepare their organization team and themselves for whatever obstacles the future may hold CEOs executive teams government leaders and policy makers need to gain a broader perspective and a firmer grasp on how their relevant industry society or community is evolving and changing Once they have acquired this foresight they need to then discover how to fully harness it by strengthening their foundations forecasting and establishing a resilient and adaptable strategy Facing Our Futures acts as a primer on the value of seeing how bad things can get and the power in imagining these futures It also provides a proven strategic planning and foresight methodology the Positive Dystopia Canvas PDC that allows leaders to supercharge their teams to build evocative visions of futures that strengthen planning today

The Global Anglophone Anjuli I. Gunaratne, Jeffrey Lawrence, 2025-09-26 This book addresses the rise of the concept of the Global Anglophone in contemporary literary studies both as an intellectual category and as a field designation Moving beyond traditional postcolonial frameworks it investigates how this emerging paradigm is reshaping our understanding of modern English language literature across geographical boundaries Distinguished scholars from diverse regions of the English speaking world reveal how the Global Anglophone has evolved from a subset of postcolonial studies into a comprehensive framework for examining modern literary production in English Through rigorous analysis and argumentation the contributors demonstrate how this conceptual transformation reflects broader changes in academic field structures job markets and our understanding of world literature Essential reading for literary scholars The Global Anglophone interrogates the future of English literary studies while offering valuable insights into the shifting landscape of contemporary academia It challenges conventional categorizations and proposes new ways of understanding the complex relationships among language literature and global cultural exchange The chapters in this book were originally published as a special issue of Interventions Journal of Postcolonial Studies
