Who Killed The American Family:

Who Killed the American Family? Phyllis Schlafly, 2014 The American family used to be the fundamental institution of our stable liberty loving and very successful society It is the essential building block of a free society with limited government In the last hundred years the American family has been attacked debased maligned slandered and vilified by every facet of society Who Killed the American Family explains how changes in the law in court decisions in the culture in education and in entertainment have eroded the once precious institution Any one of these factors would not have been enough to impact our families but together they added up to a mighty force Veteran conservative activist and conservative thought leader Phyllis Schlafly not only exposes the tactical charge the Left has implemented but she offers hope and a plan for stopping anti marriage incentives and how to restore in our culture the sacred nature of the family unit An American Family Myth Norine G. Johnson, 2010 Like the widows of other American tragedies Verna must discover the strength to survive and provide for her family An American family myth begins in 1916 Psychologist Norine Johnson brings her knowledge of post traumatic stress and family to this novel Jacket back Survival of the African American Family Karen S. Jewell, 2003-11-30 Challenging widely held beliefs this provocative book offers nothing less than a blueprint for enhancing the social and economic status of African American families Despite the implementation of liberal social policies in the 1960s and 70s successive U S administrations continue to dash the hopes and expectations of African Americans who remain subject to racism and discrimination Arguing that social policies and their absence have affected the stability of the African American family Jewell refutes the myth of significant progress for African American families emanating from the civil rights era exposing the myriad reasons why greater advancement toward equality has not occurred in major societal institutions Attention is focused on the extent to which African American families have been adversely affected by a process of assimilation that was socio psychological rather than economic This new edition builds upon the first edition and is revised and expanded to reflect new and persistent institutional policies and practices of race gender and class inequality facing African American families The revised edition explores such issues as racial profiling capital punishment police brutality predatory lending No Child Left Behind welfare reform affirmative action and racial disparities in healthcare academic achievement and home ownership Jewell proposes a variety of strategies and policies that are needed to ensure greater social and economic equality and justice for African American families **The New Immigrant and the American Family** Marcelo M. Suárez-Orozco, Carola Suárez-Orozco, Desirée Qin-Hilliard, 2014-07-16 This six volume set focuses on Latin American Caribbean and Asian immigration which accounts for nearly 80 percent of all new immigration to the United States The volumes contain the essential scholarship of the last decade and present key contributions reflecting the major theoretical empirical and policy debates about the new immigration The material addresses vital issues of race gender and socioeconomic status as they intersect with the contemporary immigration experience Organized by theme each volume

stands as an independent contribution to immigration studies with seminal journal articles and book chapters from hard to find sources comprising the most important literature on the subject The individual volumes include a brief preface presenting the major themes that emerge in the materials and a bibliography of further recommended readings In its coverage of the most influential scholarship on the social economic educational and civil rights issues revolving around new immigration this collection provides an invaluable resource for students and researchers in a wide range of fields including contemporary American history public policy education sociology political science demographics immigration law ESL linguistics and more
