Thinking about Democracy Arend Lijphart, 2007-10-10 Arend Lijphart is one of the world's leading and most influential political scientists whose work has had a profound impact on the study of democracy and comparative politics. *Thinking about Democracy* draws on a lifetime's experience of research and publication in this area and collects together for the first time his most significant and influential work. Peacemaking, Power-sharing and International Law Martin Wählisch, 2019-09-05 This monograph provides a contemporary analysis of the frictions between peacemaking and international human rights law based on the cases of postconflict power sharing in Lebanon and Bosnia Herzegovina. In this context it evaluates the long standing debate in the United Nations and human rights bodies about the imperfect peace. Written from a practitioner scholarly viewpoint and drawing from new authentic sources the book describes the mechanisms used in peace agreements and post conflict constitutions for managing ethnic or religious diversity, explains their legal limits under international human rights law and provides a conceptual framework for analysing the nexus between law and peacemaking. The book argues that the relationship between the content of peace agreements and post conflict constitutions, their negotiation process and the element of time needs to be untangled to better understand the legal limits of statebuilding in the aftermath of armed conflict. It is a key resource for scholars in human rights law and peace and conflict studies, advisers in peace processes, constitution makers and peace mediators.

Politics of Identity in Post-Conflict States Éamonn Ó Ciardha, Gabriela Vojvoda, 2015-12-14 Ireland and the Balkans have come to represent divided and re-united communities. They both provide effective microcosms of national, ethnic, political, military, religious, ideological and cultural conflicts in their respective regions and as a result they demonstrate real and imaginary divisions. This book will specifically focus on the history, politics and literature of Bosnia Herzegovina and Northern Ireland while making comparative reference to some of Europe's other disputed and divided regions. Using case studies such as Kosovo and Serbia, Lithuania, Germany, Poland, Russia and Belarus, Greece and Macedonia, it examines space, place and border discourse, the topography of war and violence, post-war settlement and reconciliation and the location and negotiation of national, ethnic, religious, political and cultural identities. The book will be of particular interest to scholars and students of cultural studies, history, politics, Irish studies, Slavonic studies, area studies and literary studies.

Politics of Democratic Breakdown Gangsheng Bao, 2022-05-30 Democratic breakdown as a political and historic event can impact the fate of millions if not hundreds of millions of people by changing the political complexion of a country. This book attempts to systematically explain why democracies collapse. The author's main theoretical argument is based on the examination of two factors. One is political cleavages among voters. These can cause serious political conflicts.

and may lead to fierce political confrontation and major upheaval at the society level The other revolves around the types of political and institutional arrangements under democratic regimes Centrifugal democratic regimes are likely to weaken government capacity or state capacity rendering governments incapable of effectively resolving political conflicts and when these two factors come together political conflicts are less likely to be controlled effectively These situations can evolve into serious political crises and eventually lead to the collapse of democratic regimes The empirical research of this book is based on a comparative historical analysis of Germany Nigeria Chile and India Examining democratic collapses from both theoretical and empirical perspectives this book will be of interest to those engaged in the study of democracy Political Science Comparative Politics and Political Theory *Civil Society and Political Reform in Lebanon and Libya* Carmen Geha, 2016-02-12 Lebanon and Libya have undergone critical political events in recent years However demands for reform from civic institutions during these transitions have not led to concrete political decisions Civil Society and Political Reform in Lebanon and Libya reveals the deeply entrenched historical patterns and elements of continuity that have led to path dependent outcomes in the political transitions of both countries Motivated by personal experiences as an activist in Lebanon the author draws together a wide range of data from participant observations nation wide surveys interviews and focus groups in a careful analysis of these two civil society led reform campaigns The study demonstrates how the combination of weak states and power sharing agreements marginalizes civic organisations and poses institutional constraints on the likelihood of reform Written by an active participant in the political events discussed this book offers new insight into two countries which present comparable and informative case studies As such it is a valuable resource for students scholars and policymakers interested in civil society politics and reform in the Middle East and North Africa *Human rights and democratic governance in Kenya: A post-2007 appraisal* John Osogo Ambani, Nicholas Wasonga Orago, Ochieng Walter Khobe, Paul Ogendi, Winifred Kamau, Conrad Bosire, Ken Obura, Juliet Okoth, Ruth Aura-Odhiambo, 2015-08-21 This publication is a collection of essays on human rights and democratic governance in Kenya in the period after the 2007 post elections violence After surviving the trauma of electoral violence the country soon embarked on a journey towards reconstruction by engaging in among other things intense re evaluation of the then existing system of laws and institutions In the process the daunting task has been to reverse the flawed systems that have been in existence for many decades and in their place entrench systems that would promote and respect democratic governance and human rights This publication therefore documents the extent of the country s reconstruction since 2007 and makes recommendations for the way forward for the recovery of the state *International Encyclopedia of Political Science* Bertrand Badie, Dirk Berg-Schlosser, Leonardo Morlino, 2011-09-07 Request a FREE 30 day online trial to this title at www.sagepub.com/freetrial With entries from leading international scholars from around the world this eight volume encyclopedia offers the widest possible coverage of key areas both regionally and globally The International Encyclopedia of Political Science provides a definitive comprehensive picture

Federalism, Plurinationality and Democratic Constitutionalism Ferran Requejo, Miquel Caminal Badia, 2012-02-20. This book provides a theoretical and comparative analysis of federalism and federations in plurinational democracies, examining how states with distinct peoples and communities coexist or not. Through a theoretical approach to democracy and federalism and interdisciplinary analysis of plurinationality in state organization, including case studies of the UK, Russia, Canada, Belgium, India, Spain, Switzerland, and Bolivia, this text assesses the possibilities and limits of federalism as a way to recognize and accommodate multinationalism in plurinational democracies. It evaluates a range of strategies used by states to support national, ethnic, linguistic, or religious collectives in present-day liberal democracies. Leading scholars in the field evaluate the institutional and practical repercussions regarding the issue of recognition and accommodation of national minorities in a globalised world through different theoretical perspectives to build up a detailed picture of problems and solutions to multinationalism. Looking both within and beyond the state, this is an invaluable examination of dilemmas and institutional challenges faced by many modern democracies. *Federalism, Plurinationality and Democratic Constitutionalism* will be of interest to students, researchers, and scholars of democracy, nationalism, federalism, and constitutionalism.
