Thinking Like An Island Navigating A Sustainable Future In Hawaii:

Thinking Like an Island Jennifer Chirico, Gregory S. Farley, 2015-04-30 Hawaii is a rare and special place in which beauty and isolation combine to form a vision of paradise That isolation though comes at a price resources in modern day Hawaii are strained and expensive and current economic models dictate that the Hawaiian Islands are reliant upon imported food fuels and other materials Yet the islands supported a historic Hawaiian population of a million people or more This was possible because Hawaiians prior to European contact had learned the ecological limits of their islands and how to live sustainably within them Today Hawaii is experiencing a surge of new strategies that make living in the islands more ecologically economically and socially resilient A vibrant native agriculture movement helps feed Hawaiians with traditional foods and employs local farmers using traditional methods efforts at green homebuilding help provide healthy comfortable housing that exists in better harmony with the environment efforts to recycle wastewater help reduce stress on fragile freshwater resources school gardens help feed families and reconnect them with local food and farming At the same time many of the people who have developed these strategies find that their processes reflect and in some cases draw from the lessons learned by Hawaiians over thousands of years This collection of case studies is a road map to help other isolated communities island and mainland navigate their own paths to sustainability and establishes Hawaii as a model from which other communities can draw inspiration practical advice and hope for the future **Thinking Like an Island** Jennifer Chirico, Gregory S. Farley, 2015

Indigenous Food Sovereignty in the United States Devon A. Mihesuah, Elizabeth Hoover, 2019-08-02 All those interested in Indigenous food systems sovereignty issues or environment and their path toward recovery should read this powerful book Kathie L Beebe American Indian Quarterly Centuries of colonization and other factors have disrupted indigenous communities ability to control their own food systems This volume explores the meaning and importance of food sovereignty for Native peoples in the United States and asks whether and how it might be achieved and sustained Unprecedented in its focus and scope this collection addresses nearly every aspect of indigenous food sovereignty from revitalizing ancestral gardens and traditional ways of hunting gathering and seed saving to the difficult realities of racism treaty abrogation tribal sociopolitical factionalism and the entrenched beliefs that processed foods are superior to traditional tribal fare The contributors include scholar activists in the fields of ethnobotany history anthropology nutrition insect ecology biology marine environmentalism and federal Indian law as well as indigenous seed savers and keepers cooks farmers spearfishers and community activists After identifying the challenges involved in revitalizing and maintaining traditional food systems these writers offer advice and encouragement to those concerned about tribal health environmental destruction loss of species habitat and governmental food control A Sustainable Philosophy—The Work of Bryan Norton Sahotra Sarkar, Ben A. Minteer, 2018-07-16 This book provides a richly interdisciplinary assessment of the thought and work of Bryan Norton one of most innovative and influential environmental philosophers of the past thirty years In landmark works such as

Toward Unity Among Environmentalists and Sustainability A Philosophy of Adaptive Ecosystem Management Norton charted a new and highly productive course for an applied environmental philosophy one fully engaged with the natural and social sciences as well as the management professions A Sustainable Philosophy gathers together a distinguished group of scholars and professionals from a wide array of fields including environmental philosophy natural resource management environmental economics law and public policy to engage Norton s work and its legacy for our shared environmental future A study in the power of intellectual legacy and the real world influence of philosophy the book will be of great interest scholars and students in environmental philosophy public policy and management and environmental and sustainability studies By considering the value and impact of Norton s body of work it will also chart a course for the next generation of pragmatic environmental philosophers and sustainability scholars grappling with questions of environmental value knowledge and practice in a rapidly changing world

Hawaiian by Birth Joy Schulz, 2020-07-01 2018 Sally and Ken Owens Award from the Western History Association Twelve companies of American missionaries were sent to the Hawaiian Islands between 1819 and 1848 with the goal of spreading American Christianity and New England values By the 1850s American missionary families in the islands had birthed more than 250 white children considered Hawaiian subjects by the indigenous monarchy but U S citizens by missionary parents In Hawaiian by Birth Joy Schulz explores the tensions among the competing parental cultural and educational interests affecting these children and in turn the impact the children had on nineteenth century U S foreign policy These children of white missionaries would eventually alienate themselves from the Hawaiian monarchy and indigenous population by securing disproportionate economic and political power Their childhoods complicated by both Hawaiian and American influences led to significant political and international ramifications once the children reached adulthood Almost none chose to follow their parents into the missionary profession and many rejected the Christian faith Almost all supported the annexation of Hawai i despite their parents hope that the islands would remain independent Whether the missionary children moved to the U S mainland stayed in the islands or traveled the world they took with them a sense of racial privilege and cultural superiority Schulz adds children s voices to the historical record with this first comprehensive study of the white children born in the Hawaiian Islands between 1820 and 1850 and their path toward political revolution

Listen but Don't Ask Question Kevin Fellezs, 2019-12-06 Performed on an acoustic steel string guitar with open tunings and a finger picking technique Hawaiian slack key guitar music emerged in the mid nineteenth century Though performed on a non Hawaiian instrument it is widely considered to be an authentic Hawaiian tradition grounded in Hawaiian aesthetics and cultural values In Listen But Don t Ask Question Kevin Fellezs listens to Kanaka Maoli Native Hawaiian and non Hawaiian slack key guitarists in Hawai i California and Japan attentive to the ways in which notions of Kanaka Maoli belonging and authenticity are negotiated and articulated in all three locations In Hawai i slack key guitar functions as a sign of Kanaka Maoli cultural renewal resilience and resistance in the face of appropriation and occupation

while in Japan it nurtures a merged Japanese Hawaiian artistic and cultural sensibility For diasporic Hawaiians in California it provides a way to claim Hawaiian identity By demonstrating how slack key guitar is a site for the articulation of Hawaiian values Fellezs illuminates how slack key guitarists are reconfiguring notions of Hawaiian belonging aesthetics and politics throughout the transPacific *Routledge Handbook of Food as a Commons* Jose Luis Vivero-Pol, Tomaso Ferrando, Olivier De Schutter, Ugo Mattei, 2018-12-17 From the scientific and industrial revolution to the present day food an essential element of life has been progressively transformed into a private transnational mono dimensional commodity of mass consumption for a global market But over the last decade there has been an increased recognition that this can be challenged and reconceptualized if food is regarded and enacted as a commons This Handbook provides the first comprehensive review and synthesis of knowledge and new thinking on how food and food systems can be thought interpreted and practiced around the old new paradigms of commons and commoning The overall aim is to investigate the multiple constraints that occur within and sustain the dominant food and nutrition regime and to explore how it can change when different elements of the current food systems are explored and re imagined from a commons perspective Chapters do not define the notion of commons but engage with different schools of thought the economic approach based on rivalry and excludability the political approach recognizing the plurality of social constructions and incorporating epistemologies from the South the legal approach that describes three types of proprietary regimes private public and collective and different layers of entitlement bundles of rights and the radical activist approach that considers the commons as the most subversive coherent and history rooted alternative to the dominant neoliberal narrative These schools have different and rather diverging epistemologies vocabularies ideological stances and policy proposals to deal with the construction of food systems their governance the distributive implications and the socio ecological impact on Nature and Society The book sparks the debate on food as a commons between and within disciplines with particular attention to spaces of resistance food sovereignty de growth open knowledge transition town occupations bottom up social innovations and organizational scales local food national policies South South collaborations international governance and multi national agreements Overall it shows the consequences of a shift to the alternative paradigm of food as a commons in terms of food the planet and living beings **Caring About Hunger** George Kent, 2016-09-25 In this world of abundant resources and huge wealth hunger cannot be understood simply as a problem of food production It is also a matter of human relations Hunger grows out of widespread indifference and exploitation The goal of ending hunger has been achieved in many places including places where people have little money In stable strong communities where people care about one another s well being no one goes hungry That caring is strengthened when people work and play together This insight tells us the direction we need to take to move toward a world without hunger The problem of global hunger will be solved when we learn to live together well locally Mastery Tony Wagner, Ulrik Juul Christensen, 2025-09-16 If you ve ever wondered why our education system feels stuck in the past this book delivers both a

powerful critique and a bold vision for the future Daniel H Pink 1 New York Times bestselling author of Drive How much information is forgotten almost immediately after it is taught How many students graduate from high school unprepared for careers where lifelong learning is essential to succeed These problems stem from an educational system that uses time spent in a classroom and the results of standardized multiple choice tests as proxies for actual understanding Educators Tony Wagner and Ulrik Juul Christensen call for a radical new system of learning where students progress individually when they demonstrate that they can use what they have learned no matter how long it takes to get there This is called mastery learning and it is the future of education This book shows how mastery learning is already being put to use in the United States and around the world from kindergarten to college and in the workplace Through conversations with teachers students parents policymakers and employers Wagner and Christensen show how mastery improves motivation and prepares students for productive work an engaged civic life and personal growth and well being They also outline the challenges of adopting mastery learning and how to overcome them Mastery is an urgent call to action to transform education for all
