belief and authenticity **Standing for Reason** John Sexton, 2019-04-16 A powerful case for the importance of universities
as an antidote to the secular dogmatism that increasingly infects political discourse John Sexton argues that over six decades
a secular dogmatism impenetrable by dialogue or reason has come to dominate political discourse in America Political
positions elevated to the status of doctrinal truths now simply are revealed Our leaders and our citizens suffer from an
allergy to nuance and complexity and the enterprise of thought is in danger Sexton sees our universities the engines of
knowledge and stewards of thought as the antidote and he describes the policies university leaders must embrace if their
institutions are to serve this role Acknowledging the reality of our increasingly interconnected world and drawing on his
experience as president of New York University when it opened campuses in Abu Dhabi and Shanghai Sexton advocates for
global network universities as a core aspect of a new educational landscape and as the crucial foundation blocks of an
interlocking world characterized by secular ecumenism
