[Summary of Naomi Klein's This Changes Everything by Milkyway Media](#) Milkyway Media, 2018-08-31 This Changes Everything Capitalism vs The Climate 2014 by Naomi Klein argues that we must act now both individually and collectively to cut greenhouse gas emissions If allowed to grow at the current pace greenhouse gas emissions will destroy the Earth Purchase this in depth summary to learn more

Capitalism in the Anthropocene John Bellamy Foster, 2022-08-23 Over the last 11 700 years during which human civilization developed the earth has existed within what geologists refer to as the Holocene Epoch Now science is telling us that the Holocene Epoch in the geological time scale ended replaced by the onset of a new more dangerous Anthropocene Epoch which began around 1950 The Anthropocene Epoch is characterized by an anthropogenic rift in the

biological cycles of the Earth System marking a changed reality in which human activities are now the main geological force impacting the earth as a whole generating at the same time an existential crisis for the world's population. What caused this massive shift in the history of the earth? In this comprehensive study John Bellamy Foster tells us that a globalized system of capital accumulation has induced humanity to foul its own nest. The result is a planetary emergency that threatens all present and future generations throwing into question the continuation of civilization and ultimately the very survival of humanity itself. Only by addressing the social aspects of the current planetary emergency exploring the theoretical historical and practical dimensions of the capitalism's alteration of the planetary environment is it possible to develop the ecological and social resources for a new journey of hope. *Public Spaces, Politics, and Policy* Todd Alan Price, Morna McDermott

McNulty, 2025-10-16 This book takes a deep dive into the historic sociopolitical and economic interests that have resulted in a frontal assault on the very governance of public education. Recent decades have seen dramatic changes in the landscape of American public education including the closure of local schools, elimination of teachers unions and local school board takeover attempts. In order to explore the social and political motivations behind these changes the contributors address questions such as: What tactics are being used to drive this paradigm shift where teachers are the enemy and schools are harming kids? What events in this sociopolitical moment right now make it ripe for dismantling the democratic experiment of public education? In an age of sound bites and instant news how can the nuanced and sometimes hypocritical narrative supporting public education compete for attention with the seductive political pablum of reactionary groups? The voices in these chapters include those of curriculum theorists, policy analysts, education practitioners and leaders and parents all of whom engage in forms of activism at the local and/or national level. **Love in a Time of Climate Change** Sharon

Delgado, 2017-06-30 *Love in a Time of Climate Change* challenges readers to develop a loving response to climate change which disproportionately harms the poor, threatens future generations and damages God's creation. This book creatively adapts John Wesley's theological method by using scripture, tradition, reason and experience to explore the themes of creation and justice in the context of the earth's changing climate. By consciously employing these four sources of authority readers discover a unique way to reflect on planetary warming theologically and to discern a faithful response. The book's premise is that love of God and neighbor in this time of climate change requires us to honor creation and establish justice for our human family for future generations and for all creation. From the introduction: As we entrust our lives to God we are enabled to join with others in the movement for climate justice and to carry a unified message of healing, love and solidarity as we live into God's future offering hope in the midst of the climate crisis that another world is possible. God is ever present always with us. Love never ends.
