Writing Women's History Elizabeth Anne Payne, 2011-09-13 Contributions by Laura F Edwards Crystal Feimster Glenda E Gilmore Jacquelyn Dowd Hall Darlene Clark Hine Mary Kelley Markeeva Morgan Anne Firor Scott Laurel Thatcher Ulrich and Deborah Gray White Anne Firor Scott's The Southern Lady From Pedestal to Politics 1830-1930 stirred a keen interest among historians in both the approach and message of her book Using women's diaries letters and other personal documents Scott brought to life southern women as wives and mothers as members of their communities and churches and as sometimes sassy but rarely passive agents She brilliantly demonstrated that the familiar dichotomies of the personal versus the public the private versus the civic which had dominated traditional scholarship about men could not be made to fit women's lives In doing so she helped to open up vast terrains of women's experiences for historical scholarship This volume based on papers presented at the University of Mississippi's annual Chancellor Porter L Fortune Symposium in Southern History brings together essays by scholars at the forefront of contemporary scholarship on American women's history Each regards The Southern Lady as having shaped her historical perspective and inspired her choice of topics in important ways

These essays together demonstrate that the power of imagination and scholarly courage manifested in Scott's and other early American women historians work has blossomed into a gracious plentitude

Morgan, Yvonne Thomas Wells, 2024-09-05 A comprehensive and richly illustrated survey of one of the most significant and intriguing quilters of the 21st century featuring 109 color plates of Wells's narrative quilts with intimate commentaries by Wells herself

An American Quilt Rachel May, 2018-05-01 Rachel May's rich new book explores the far reach of slavery from New England to the Caribbean the role it played in the growth of mercantile America and the bonds between the agrarian south and the industrial north in the antebellum era all through the discovery of a remarkable quilt While studying objects in a textile collection May opened a veritable treasure trove a carefully folded unfinished quilt made of 1830s era fabrics its backing containing fragile aged papers with the dates 1798 1808 and 1813 the words shuger rum casks and West Indies repeated over and over along with friendship kindness government and incident The quilt top sent her on a journey to piece together the story of Minerva Eliza Jane and Juba the enslaved women behind the quilt and their owner Susan Crouch May brilliantly stitches together the often silenced legacy of slavery by revealing the lives of these urban enslaved women and their world Beautifully written and richly imagined *An American Quilt* is a luminous historical examination and an appreciation of a craft that provides such a tactile connection to the past

Writing History from the Margins Claire Parfait, Hélène Le Dantec-Lowry, Claire Bourhis-Mariotti, 2016-09-13 With contributions from leading American and European scholars this collection of original essays surveys the actors and the modes of writing history from the margins of society focusing specifically on African Americans Nearly 100 years after *The Journal of Negro History* was founded this book assesses the legacy of the African American historians mostly amateur historians initially who wrote the history of their community between the 1830s and World War II Subsequently the growth of the civil rights movement further changed historical paradigms and the place of African Americans and that of black writers in publishing and in the historical profession Through slavery and segregation self educated and formally educated Blacks wrote works of history often in order to inscribe African Americans within the main historical narrative of the nation with a two fold objective to make African Americans proud of their past and to enable them to fight against white prejudice Over the past decade historians have turned to the study of these pioneers but a number of issues remain to be considered This anthology will contribute to answering several key questions concerning who published these books and how were they distributed read and received Little has been written concerning what they reveal about the construction of professional history in the nineteenth century when examined in relation to other writings by Euro Americans working in an academic setting or as independent researchers
