Matthew Van Cleave Teaching Philosophy. As the oldest discipline in the academy philosophy began by asking questions of the world and of human nature. Philosophers are responsible for the Enlightenment and laid the foundations for constitutional governments. Assuming no prior background in the subject this volume brings philosophical concepts into sharp focus through relatable examples and clear explanations of philosophy's big questions and arguments. The second edition of this accessible textbook is organized around seven central philosophical problems including ethics the existence of God free will personal identity philosophy of mind and epistemology. These self-contained chapters have been reordered and recalibrated to best suit the needs of introductory philosophy courses and can be taught independently or in sequence. Enhanced by updated examples new hyperlinks and references and detailed bibliographies the book is complemented by extensively revised online resources available to instructors including a 200 question test bank and over 450 PowerPoint slides designed to strengthen student comprehension of key concepts.
