Spaceship Earth Patricia Lauber,1996-04-26 Explains how life is sustained on Earth through the presence of water food and oxygen and how the planet is different from a spacecraft because it can rejuvenate its supply of these critical resources

My Heresies Michael Jean Nystrom-Schut,2016-06-25 In the mind of each person on the planet a set of notions and ideas of God or gods reside Some of these systems are basic and simple Others are highly complex and complicated Some borrow their God god notions from authority or from others they know Others are much more original eclectically piecing together many separate parts from multiple sources No two people in the world experience and translate God gods in the same way And this is what makes things so interesting As I have encountered this wonderful life I have also bumped up against countless people who were in the position to explain exactly who God was and was not They were quite sure of themselves and anxious to impart this wisdom to me But because I had a mind and heart of my own this put me on the outside looking in for much of my life We all come to a place where we realize we must make our minds up as to what we will and will not do how we will think and who we will be As I have encountered them and their God gods I have found my own way through this foggy maze and discovered a modicum of peace and reconciliation in the process This is the massive task of all of us as well as why I needed to lay it out to you in this lengthy 2 part book
