two related activities criticizing individualist self making values and attempting through surprisingly similar ritual practices to construct ideals of masculinity that were more expressive of vulnerability tenderness and care Men s politically varied efforts to refashion masculine ideals during the last 50 years have contributed to a different global climate with respect to masculinities Near the end of the 1990s agencies such as UNESCO helped the reform of masculine ideals become more widely seen as a necessary component of movements for social justice and a culture of peace Current efforts to revive a more aggressive and force based masculine ideal a masculinity for a culture of war are one of many testaments to the cultural resonance of what has been called the men s movement
