Six Days In The Dark Ferhat Akbaş, 2025-09-18 This is the story of seven different lives intersecting within the same subway carriage Mert from Turkey Eleanor from England Maria from Russia Olivia from South America Beatriz from Spain Marco from Italy and Sophie from

France One morning the ground quaked The earth cracked The city tilted The sky fell silent And along with hundreds of others seven strangers found themselves in the same darkness They clung only to each other This is not just a story of a disaster but of being human Seven people born in different lands raised speaking different languages having lived different lives But that morning their pasts were left behind Because there are moments when No language matters no nationality is recognized Only the human is seen And what remains together is examined It is the story of lives from all over the world touching in the shadows of Istanbul A narrative where colors beliefs and paths intertwine A place where borders become meaningless and only existence remains It is not the earthquake itself but the upheaval within the human being that is essential here And that upheaval does not separate people it unites them Because what holds us together is not only the desire to live but our power to remain good And good people while passing through time and pain silently find a place in each other's hearts They share hope in the midst of darkness they approach each other not with words but with the silent language of their hearts Because true closeness is born not from words but from hearts leaning silently against each other

The Venus Project: A Post Apocalyptic Sci-Fi Ilker Korkutlar, 2023-04-18 Derin Kaplan was only six years old when her father was frozen and a lot has changed in the world since then The financial markets crashed with the interventions of a quantum computer built by her father and biological weapons killed most of the global population Derin and her mother survived and live in a female only community in a high tech building rising above the sea The year is 2044 and as a cryogenic engineer Derin is working day and night to bring her father back to life If he does come back he will be three years younger than her but what will that change He'll still be her father She remembers his face from old videos and she's programmed her personal robot to speak with his voice She misses him Her mother is asking her to think this through more but Derin is determined She manages to freeze and thaw one of the hamsters she's been experimenting with but one is still dead There must have been a difference somewhere in the process but she can't find it She needs to ask Quantus the community's AI No one else can help her She won't give up even if bringing her father back means that two of the women who have applied for a baby this year will be turned down due to the community's restrictions on population growth The system is very different from the approaches of the past unanimity is required in voting not just a majority She must prepare a speech and convince the other women to vote in favor of bringing her father back However when her own life and the fate of the whole community are threatened by artificial intelligence

Derin begins to question everything she thought she knew Her questions will lead her into outer space in pursuit of a mysterious object that appears and disappears in the sky and the answers that she finds will show her how humanity came to be on Earth and how they should live from this point forward Derin s story is interspersed with those of several other interconnected characters with action taking place both before and after the crises that bring about the collapse of the old world order
