Popular Photography ,1994-03 **Changing Times** ,1978 HAYWIRE - An IT Leaders Tale of Survival Joe DePage, This story is a work of fiction But at the same time it isn't It's a fantastical hyper sensationalized shadow of what may probably be a similar situation in your own career IT organizations everywhere struggle daily to keep heads afloat in an ever shifting sea of business requirements New servers new services new lines of business and all the while it's the job of IT to keep technology running That's a hard job This book's fictional premise serves the purpose of telling what I hope is a really fun story I mean it's not every day that puppies and garage doors get to meet in such interesting ways But surrounding that fiction is a parable every IT professional must come to accept You can never have enough AWARENESS It's a little known fact as Cliff Clavin from the old TV show Cheers would say that the Shih Tzu once guarded Tibetan monks as they pursued greater awareness Today they will be helping us on our journey to greater application and data center awareness The technologies driving our datacenters are more complex than they've ever been and that complexity will only increase as

the years go by These days no human alive can keep track of everything all at once unaided Tools help but tools are a means to an end The tools and technologies that bring about better awareness are no different than your average hammer and saw By themselves they accomplish nothing But in the hands of the right person and with proper attention and care they can accomplish just about anything I encourage you to take a few minutes to absorb this short story Enjoy it for the entertainment value it brings And then afterward take another minute to reflect on the message behind the fiction I ve offered a few questions after each chapter to get you started Your datacenter and puppies everywhere will thank you **PC Mag** ,1999-10-05 PCMag com is a leading authority on technology delivering Labs based independent reviews of the latest products and services Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology
