The Vampire Countess Paul Feval,2003-09-01 In vita mors in morte vita In life death in death life The particular gift of Countess Addhema was to be reborn beautiful and young every time she could apply to the hideous bareness of her skull a living head of hair a scalp torn from the head of a living victim This was why her tomb was full of the skulls of young women Ren recoiled in horror at the sight of his mistress restored to her real condition the cadaver of an old woman fleshless cold totally bald and already turning to dust After 1856 it would be a long time before any other writer contrived a vampire as perversely charismatic as Addhema she is really three vampires in one She is first and foremost the vampire as libido run wild but she is certainly the vampire as gold digger too and she may well have something of the vampire as muse to complete her mystique Brian Stableford Paul F val 1816 1887 was the author of numerous popular swashbuckling novels and one of the fathers of the modern crime thriller Brian Stableford has published more than fifty novels and two hundred short stories The Vampire Countess was written in 1855 forty years before Bram Stoker s Dracula and is one of three classic vampire stories also available from Black Coat Press
