Vampire Desire Of Blood Desires Of Blood 1:

The Palgrave Handbook of the Vampire Simon Bacon, 2024-04-16 Winner of the The Lord Ruthven Assembly Award for Non Fiction 2024 This Handbook MRW is a unique encompassing overview of the figure of the vampire Not only covering the list of usual suspects this volume provides coverage from the very first reports of vampire like creatures in the 17th century to film and media representations in the 21st century The Palgrave Handbook of the Vampire shows that what you thought you knew about vampires is only a fraction of the real and fascinating story

Monstrous Nature Robin L. Murray, Joseph K. Heumann, 2016-10-01 Godzilla a traditional natural monster and representation of cinema s subgenre of natural attack also provides a cautionary symbol of the dangerous consequences of mistreating the natural world monstrous nature on the attack Horror films such as Godzilla invite an exploration of the complexities of a monstrous nature that humanity both creates and embodies Robin L Murray and Joseph K Heumann demonstrate how the horror film and its offshoots can often be understood in relation to a monstrous nature that has evolved either deliberately or by accident and that generates fear in humanity as both character and audience This connection between fear and the natural world opens up possibilities for ecocritical readings often missing from research on monstrous nature the environment and the horror film Organized in relation to four recurring environmental themes in films that construct nature as a monster anthropomorphism human ecology evolution and gendered landscapes the authors apply ecocritical perspectives to reveal the multiple ways nature is constructed as monstrous or in which the natural world itself constructs monsters This interdisciplinary approach to film studies fuses cultural theological and scientific critiques to explore when and why nature becomes monstrous

Theology and Vampires Madeline Potter, 2025-03-15 What can vampires teach us about God How can they reshape the way we think about religion and our relationship with the divine Through a thorough analysis of the relationship between theology and vampires Theology and Vampires provides a glimpse into the versatility of the vampire as a tool for theological enquiry Contributions to the volume assess vampires and their role in articulating theological thought bringing together some of the classical vampire tales of the 19th century with contemporary iterations of the figure Considering how vampires are used to ask theological questions across media from literature through to video games this volume paints a complex and comprehensive picture of the often overlooked manner in which vampires not only reflect but also actively shape theological modes of enquiry

Nosferatu in the 21st Century Simon Bacon, 2022-12-15 Nosferatu in the 21st Century is a celebration and a critical study of F W Murnau s seminal vampire film Nosferatu eine Symphonie des Grauens on the 100th anniversary of its release in 1922 The movie remains a dark mirror to the troubled world we live in seeing it as striking and important in the 2020s as it was a century ago The unmistakable image of Count Orlok has traveled from his dilapidated castle in old world Transylvania into the futuristic depths of outerspace in Star Trek and beyond as the all consuming shadow of the vampire spreads ever wider throughout contemporary popular culture This innovative collection of essays with a foreword by

renowned Dracula expert Gary D Rhodes brings together experts in the field alongside creative artists to explore the ongoing impact of Murnau's groundbreaking movie as it has been adapted, reinterpreted and recreated across multiple mediums from theatre performance and film to gaming music and even drag. As such, *Nosferatu in the 21st Century* is not only a timely and essential book about Murnau's film but also illuminates the times that produced it and the world it continues to influence.

Monsters in the Classroom Adam Golub, Heather Richardson Hayton, 2017-06-09 Exploring the pedagogical power of the monstrous, this collection of new essays describes innovative teaching strategies that use our cultural fascination with monsters to enhance learning in high school and college courses. The contributors discuss the implications of inviting fearsome creatures into the classroom, showing how they work to create compelling narratives and provide students a framework for analyzing history, culture and everyday life. Essays explore ways of using the monstrous to teach literature, film, philosophy, theater, art, history, religion, foreign language and other subjects. Some sample syllabi, assignments and class materials are provided.

Blood Electric Kenji Siratori, 2002 In this new Japanese cyberpunk classic from the nationally acclaimed young cult writer from Hokkaido, a fatal collusion of drag embryos and DNA angels in Cadaver City ignites the circuitry of the ADAM Doll whose eyes are fractured ports of entry to a terminal videodrome where a cyber-intelligent cut-up project spanning William S. Burroughs to Japanese underground cinema aborts and implodes with amniotic velocity. As gene war is waged in Placenta World and a nano-junk virus pandemic spreads, the world is in for quite a surprise.
