Van 28 Aug Tot 3 Sept 1972:

Roots of Counterterrorism Constant Willem Hijzen, 2024-10-22 Following the 9 11 terrorist attacks much of the counterterrorism literature has focused on costly and ineffective approaches losing sight of productive strategies from eras past *Roots of Counterterrorism* revives the narratives from the Dutch domestic security service Binnenlandse Veiligheidsdienst BVD from 1968 78 a period of turbulence that lasted until the Dutch regained political stability Using newly declassified primary sources Constant Willem Hijzen shows that a goal of large scale prevention was not as effective as focusing on suspected perpetrators of attacks The book introduces a new way of analyzing the dynamics of counterterrorism shedding light on contemporary wisdom from Dutch intelligence history

Evaluating Counterterrorism Performance Beatrice de Graaf, 2011-03-15 This book offers a new model for measuring the success and impact of counterterrorism strategies using four comparative historical case studies The effectiveness of counterterrorism measures is hard to assess especially since the social impact of terrorist attacks is a fundamental and complex issue This book focuses on the impact of counterterrorist measures by introducing the concept of the performative power of counterterrorism the extent to which governments mobilize public and political support thereby sometimes even unwittingly assisting terrorists in creating social drama The concept is applied to counterterrorism in the Netherlands Italy the Federal Republic of Germany and the United States in the 1970s Based on in depth case study research using new primary sources and interviews with counterterrorist officials and radicals a correlation is established between a low level of performative power and a decline of terrorist incidents This is explored in terms of the link between social drama as enhanced by counterterrorist measures and ongoing radicalization processes This book demonstrates that an increase in visible and intrusive counterterrorist measures does not automatically lead to a more effective form of counterterrorism In the open democracies of the west not transforming counterterrorism into a performance of power and repression is at least as important as counterterrorism measures themselves This book will be of much interest to students of terrorism and counter terrorism discourse analysis media and communication studies conflict studies and IR Security Studies in general

At Home on the World Markets Joost Jonker, Keetie Sluyterman, 2001-03-01 The Dutch economy has relied on trade for centuries During the seventeenth century the Netherlands experienced a Golden Age built largely on commercial enterprise and trade continues to be the golden link in the supply chain from producers to consumers Yet we know very little about the business of trade and the people involved in it What was the nature of their work and how did it evolve through the ages In the lavishly illustrated *At Home on the World Markets* Joost Jonker and Keetie Sluyterman look at mercantile dynasties such as the Trips and the Van Eeghens and companies such as the famous Dutch East Indian Company VOC and the modern trading company Hagemeyer that have been largely unstudied They describe the evolution of a unique economic sector that occupies a key position in the supply chain from producers to consumers
