The Politics of Porn for Young People in New Zealand

Claire Meehan, 2023-12-11 This book sheds light on young New Zealanders' social realities and lived experiences of their digital and sexual lives through an understanding of how they think about and engage with porn. Drawing on qualitative empirical data from interviews with 106 young New Zealanders, each chapter examines young people's creation of informal norms through an investigation of the broader issues associated with their engagement with porn, namely consent, gender, pleasure, and empowerment. Following this, the book gives voice to young New Zealanders' perceptions of the value of the sexuality education they receive. Finally, this text argues toward a co-constructed intersectional sexuality education.

Schooling Sexual Cultures Louisa Allen, 2017-03-31 Moving beyond the traditional focus on curriculum and pedagogy, this volume explores hidden dimensions of sexuality education in schools and how sexual meanings are produced. Challenging the standard understandings of sexuality education, Allen discusses how students' knowledge of sexualities is often learnt outside the official school curriculum in informal spaces such as the sports field, gym, locker rooms, and peer groups. By employing visual methods and analysing student photo diaries, Allen's original book captures a sexual culture of schooling that allows readers to literally see through young people's eyes. Introducing theoretical ideas in relation to queer theory and new feminist/new materialisms, this volume calls for a re-conceptualization of how sexuality comes into being at school in order to take account of its material, spatial, and embodied elements.

Breathing Life into Sexuality Education

Louisa Allen, 2021-09-29 This book seeks to re-envision the purpose and pedagogy of sexuality education, disrupting its conventional instrumental and health-related aims. Predominately theoretical in nature, it presses at the traditional limits of sexuality education's thought by drawing together ideas from disparate disciplinary fields, including education, geography, sound studies, and new materialist theory. The philosophical thought of Sharon Todd provides an anchor throughout and is employed to reconceptualize sexuality education as a sensuous event. The author calls for a reframing of the relationship of education and ethics and explores what this means for sexuality education classrooms and relationships between and amongst teachers and students. The book explores pedagogies that invite new forms of student sensibility and open possibilities for engagement in sexuality education in currently uncharted ways. It will appeal to students and experienced academics conducting research related to sexuality education, educational philosophy, queer studies, and new materialisms.
