Vampires Werewolves Demons Twentieth Century Reports In The Psychiatric Literature:

Vampires, Werewolves, and Demons Richard Noll, 1992 Make no mistake this is a serious scholarly altogether professional book but it also has all the elements of a Stephen King novel Filled with real life tales of mystery misery and psychological mayhem it challenges us to realize the unfathomable and to reexamine traditional definitions of fact and fantasy And Richard Noll proves a sure footed guide as he crosses the boundary of standard psychiatric nomenclature into the world of identity transformation and blood obsession Meticulously researched and edited the book brings together an international selection of contributions historical and current to reveal the depth and breadth of psychopathology as it manifests in vampirism lycanthropy and demonical possession Mr Noll s own explorations of the subjects weave together clinical anthropological and literary perspectives to create a rich and multitextured portrait of these psychiatric disturbances As the labyrinthian nature of the human psyche unfolds within these pages we are reminded again and again of the power of the beast that lurks beneath the surface of day to day existence This is not a book for the faint of heart But for those whose thirst for knowledge compells them to question the unquestionable it is a unique and provocative exploration of disorders that lie beyond the reach of current genetic biochemical and neurophysiological understanding BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
