Yuko Zen Is Somewhere Else Simon Wilson, 2014-10-31 My name is Yuko Zen and I am somewhere else After a strange encounter with a beautiful girl in a Chinese take away Chris Winter discovers she's left her journal behind He only opens it to search for her contact details but he's quickly pulled into her mysterious world a nameless Asian city filled with tales of Buddhist dogs hedgehogs and yogurt pots and a magical girl named Pixie When Chris is totally hooked Yuko's journal takes an unexpected turn It starts to talk to him Magical surrealism for Young Adults of all ages editors at Harper Collins have likened YUKO ZEN to works by Audrey Niffenegger and Haruki Murakami **Stone Field, True Arrow** Kyoko

Mori, 2025-08-22 Maya Ishida is no stranger to sorrow Torn from her artist father in her native Japan raised by her cold ambitious mother in Minneapolis she has finally put together a life with few disruptions a safe marriage and a quiet life weaving clothes in a country studio The past is no more than a story she vaguely remembers the present is a gray landscape of solitary pleasures and modest expectations After her father dies Maya is pulled back into the memory of their parting In his many stories of Orpheus and Eurydice and of the tennyo a mythic Japanese figure he had taught her that love means making the sacrifice of letting go And so she had walked away from him without looking back Twenty four years later holding her father's last sketch Maya knows she can avoid looking back no longer She must question her placid marriage her decision not to become an artist and even the precarious peace she has made with her mother before she can be released to feel passion risk change and fall in love Kyoko Mori's young adult novel Shizuko's Daughter was hailed in The New York Times Book Review as a jewel one of those rarities that shine out only a few times in a generation In Stone Field True Arrow her first novel for adults she sheds brilliant light on eternal questions about life and love In Pursuit of Universalism Alicia Volk, 2010 Volk's impressive study rethinks the East West binary often reiterated in discussions of Japanese modernism by reinserting local aspects into the universalizing tendencies of modernism itself The book makes an important contribution to the growing literature on modern Japanese art history by providing an alternative comparative framework for understanding the global development of modernism that decenters Euro America Rigorously historical in her critique Volk destabilizes our understanding of the Japanese experience of modernity through the prism of Yorozu's singular vision of the self leaving us questioning conventional wisdom and contented to wobble Gennifer Weisenfeld Duke University In Volk's affectingly stunning and deeply reflective study of the Japanese artist Yorozu Tetsugor's work between 1910 1930 we have a profoundly historical reminder of how modernism everywhere struggled to meet the demands of the new with the readymades of received artistic practices In this study of Yorozu's utopian universalist project Volk has imaginatively broadened our understanding of the modernist moment and perceptively captured its global program to unify art and life contemporary culture and history Harry Harootyan author of Overcome by Modernity History Culture and Community in Interwar Japan

Transforming Japan Kumiko Fujimura-Fanselow, 2011-03-15 A volume of essays by Japan's leading female scholars and

activists exploring their country's recent progressive cultural shift. When the feminist movement finally arrived in Japan in the 1990s, no one could have foreseen the wide-ranging changes it would bring to the country. Nearly every aspect of contemporary life has been impacted, from marital status to workplace equality, education, politics, and sexuality. Now more than ever, the Japanese myth of a homogenous population living within traditional gender roles is being challenged. The LGBTQ population is coming out of the closet; ever-present minorities are mobilizing for change; single mothers are a growing population; and women are becoming political leaders. In *Transforming Japan*, Kumiko Fujimura Fanselow has gathered the most comprehensive collection of essays written by Japanese educators and researchers on the ways in which present-day Japan confronts issues of gender, sexuality, race, discrimination, power, and human rights. **Japan, Sport and Society** Joseph A. Maguire, Masayoshi Nakayama, 2006. Examines the tension between traditional models of Japanese sport developed over centuries of relative isolation and the forces of modernization and Japanese determination to become a global power.

Introduction to Buddhist East Asia Robert H. Scott, James McRae, 2023-03-01. This anthology provides an accessible introduction to East Asian Buddhism, focusing specifically on China, Korea, and Japan. It begins with a detailed historical introduction that includes an overview of the development of the various schools of Buddhism in East Asia and traces the transmission of Buddhism from Northwest India to China in the first century CE and then to Korea and Japan in the fourth and sixth centuries CE. The first part of the book contains five chapters that offer creative pedagogies that can help college professors infuse East Asian Buddhism into their courses. The second part includes six interdisciplinary chapters that explore thematic links between East Asian Buddhism and religious studies, philosophy, film studies, literature, and environmental studies. Love in the Time of Ethnography Lucinda Carspecken, 2017-11-15. *Love in the Time of Ethnography* explores love, variously defined as an important facet of human life and a worthy focus of study. The authors look at love in association with an Alevi and Sunni couple in Turkey; organizers of Mexican American and immigrant youth movements; Christian missionaries in China; an elderly man with dementia; two women coming home to queer identity; a White researcher working with Black women in the US; the common ground between Dogen's Zen teachings and Habermas's critical theory; an Albanian Sufi community in Michigan; and interactions between humans and the natural world. It also includes theoretical writing on the place of love in social analysis, whether this involves relationships between researchers and participants or the nature of human connection itself. The authors argue that social research is an affective process as well as a cognitive one and that fellow feeling is an essential component of making sense of the world. Along with more traditional scholarly forms, the contributors to this book use auto-ethnography, life stories, archival research, and poetry, noting that style itself conveys information and emotion. Writing is always to some extent partisan. While anthropologists and other social researchers have explored this idea over the last few decades, they have more often explored it with an eye to critique than to the ideals underlying that critique. This is a collection of essays about what ethnographers are aiming for as well as the problems they

address and the authors discuss ethical principles like *agape hizmet* and *cari o* as rationales for ethnography and rationales for social change

Asian Translation Traditions Eva Tsoi Hung Hung, Judy Wakabayashi, 2014-07-16 Translation Studies one of the fastest developing fields in the humanities since the early 1980s has so far been Euro centric both in its theoretical explorations and in its historical grounding One of the major reasons for this is the unavailability of reliable data and systematic analysis of translation activities in non European cultures While a number of scholars in the Western tradition of translation studies have become increasingly aware of this bias and its problems practically indicates that the burden of addressing such deficiencies and imbalances should be on the shoulders of scholars who are conversant with the non Western translation traditions and capable of engaging in much needed basic research This book brings together eleven scholars with expertise in different Asian translation traditions who highlight language and cultural environments as well as perceptions and modes of operation often different from those in the Western tradition Their contributions enhance our understanding of the various elements that influence the transfer of knowledge across cultures and provide invaluable data for the study of translation as a force for cultural development and cultural planning Contributors include Eva Hung Judy Wakabayashi Lawrence Wong Yoshihiro Osawa Teresa Hyun Keith Taylor Rita Kothari Doris Jedamski Raniela Barbaza and Bill Cummings
