After narrowly surviving a plane crash Bill Hatcher wakes up to discover his life of carefree abandon shattered. As a Peace Corps volunteer in Tanzania in the 1990s he had risen above his own racial prejudices and religious jingoism and yet had remained emotionally aloft, afraid to commit to the full transformation that was calling to him. In spite of misgivings he returns to Africa. In Kenya he flies bush planes, guides wilderness courses and falls in love with a young Kikuyu woman. All seems well until Bill is attacked and beaten by thugs and then injured when he is chased by an elephant. Still unable to deal with reality he escapes to Alaska where he flies still higher and loves even more recklessly. Ultimately the principles of flight force him to make a choice to fly away again or finally return to Earth as an advocate for social, animal and environmental justice. Set before, during and after 9/11 and the wars that followed and filled with spectacular scenes of flights over the African savanna and Alaskan glaciers, *Principles of Flight* is a memoir of grand adventure as well as a psychosocial inquiry into the hyper masculinity that has dominated the world.
