Postmodern Fairy

Tales Cristina Bacchilega, 2010-08-03 Postmodern Fairy Tales seeks to understand the fairy tale not as children's literature but within the broader context of folklore and literary studies. It focuses on the narrative strategies through which women are portrayed in four classic stories: Snow White, Little Red Riding Hood, Beauty and the Beast, and Bluebeard. Bacchilega traces the oral sources of each tale, offers a provocative interpretation of contemporary versions by Angela Carter, Robert Coover, Donald Barthelme, Margaret Atwood, and Tanith Lee, and explores the ways in which the tales are transformed in film, television, and musicals.

Emotions: Transforming Anger, Fear and Pain Marilyn C. Barrick, 2020-05-07 Scientists have demonstrated the link between emotional balance and physical and mental well-being. When we learn how to handle our emotions, we can achieve balance in body, mind, and soul. In *Emotions: Transforming Anger, Fear and Pain*, Dr. Marilyn Barrick, a transformational psychologist, takes the study of our emotions and how to deal with them to the next level. You will discover how to release anger, guilt, and grief in a healthy way and replace them with inner strength, courage, and peace of mind. The author shares techniques such as trauma release therapy, peaceful self-observation, and using nature as a healer to help realize loving-kindness, mindfulness, and tolerance. She also shares successful spiritual techniques she has developed in her practice. This book is an invaluable guide to creating heart-centeredness in our uncertain and turbulent world.

Monsters, Monstrosities, and the Monstrous in Culture and Society Diego Compagna, Stefanie Steinhart, 2020-01-28 Existing research on monsters acknowledges the deep impact monsters have, especially on Politics, Gender, Life Sciences, Aesthetics, and Philosophy. From Sigmund Freud's essay *The Uncanny* to Scott Poole's *Monsters in America*, previous studies offer detailed insights about uncanny and immoral monsters. However, our anthology wants to overcome these restrictions by bringing together multidisciplinary authors with very different approaches to monsters and setting up variety and increasing diversification of thought as guiding patterns. Existing research hints that monsters are embedded in social and scientific exclusionary relationships but very seldom copes with them in detail. Erving Goffman's doesn't explicitly talk about monsters in his book *Stigma*, but his study is an exceptional case which shows that monsters are stigmatized by society because of their deviations from norms, but they can form groups with fellow monsters and develop techniques for handling their stigma. Our book is to be understood as a complement and a further development of previous studies. The essays of our anthology pay attention to mechanisms of inequality and exclusion concerning specific historical and present monsters based on their research materials within their specific frameworks in order to create engaging, constructive, critical, and diverse approaches to monsters, even utopian visions of a future of societies shared by monsters. Our book proposes the usual view that humans look in a horrified way at monsters but adds that monsters can look in a critical and even likewise frightened way at the very societies which stigmatize them.
