Handbook of Research on Individualism and Identity in the Globalized Digital Age Topor, F. Sigmund, 2016-08-15
Globalization has shifted perspectives on individualism and identity as cultural exchange occurs more rapidly in an age of heightened connectivity. As technology connects those around the world, it too helps to provoke a shift in the autonomy of individuals. The Handbook of Research on Individualism and Identity in the Globalized Digital Age is an essential resource for researchers, professionals, and graduate level students. This book explores and explains how globalization has impacted humans with specific emphasis on education and human development. This research-based publication presents critical perspectives on universal changes that are occurring due to globalization. Traces of Terrorism, II Matthias Plügge, 2025-10-07 In this second volume of Traces of Terrorism, the focus is on Jihadist organizations such as al Qaeda and Islamic State. The volume begins with 9/11 al Qaeda's attacks on the World Trade Center in New York and the Pentagon in Washington. The Global War on Terrorism that followed in response is described in detail, as is the hunt for Osama bin Laden and his killing by US Navy SEALs. It also covers terrorist organizations operating in Africa and Asia, as well as so-called franchise groups, radicalized sympathizers who carried out attacks in the name of al Qaeda. The book concludes with terrorism in the US in recent years and the growing threat of domestic terrorism. **British Books in Print**, 1980 **Directory of EU Case Law on Competition**, René Barents, 2017-10-30 This well-known book, prized since 2007 by practitioners in EU competition law for its easy-to-find extracts sorted by subject, is now in its second and hugely expanded edition, covering all decisions of the Court of Justice and the General Court of the European Union on competition law through the end of 2016. This new edition, comprising forty-seven chapters, follows the same easy-to-use format as the earlier volume and covers all the case law on the substantive and procedural aspects of the EU treaty rules and legislation on antitrust and mergers. To improve the accessibility of the case law, this book is structured as follows: Hundreds of headings and subheadings present virtually every point from which a researcher is likely to start. Each subject heading starts with extracts having a more general meaning, followed by extracts relating to specific points or situations. Extracts are accompanied by cross-references where appropriate. Extracts are drawn from all EC competition case law encompassing every judgment and order in the Reports of Cases before the Court of Justice and the General Court, Summary of the Judgment until 2017. Although it is primarily of value to barristers, solicitors, in-house lawyers of companies and associations of companies, officials of national competition authorities, and other active practitioners in EU competition law, the book will also be welcomed by scholars and others who need to obtain in a minimum of time an overview of what the European courts have actually stated about a specific point, including detailed references in the field. *The Sequence of Event Analysis in Criminal Trials* Fabrizio D'Errico, Maurizio Dalla Casa, 2015-07-31 This book presents a general method that lawyers, prosecutors, and judges can follow to assess the quality and scientific content of technical work done for an accident and crime scene reconstruction.

Using multilevel sequence of events analysis allows all key events to be fully identified which in turn assists judicial bodies in identifying where to assign specific criminal liability Created from a concept long sought by the two authors an engineer and an attorney the method allows readers without any technical background to progress from an examination of evidence gathered at the scene of a complex accident and to reconstruct beyond reasonable doubt the events that took place Once created and scientifically verified by the sequence of events analysis the chain of key events serves as a reference source for various levels of complex organizations and inter organization structures in cases involving complex criminal responsibilities
