Utopias On Puget Sound 1885 1915:

Utopias on Puget Sound, 1885-1915 Charles Pierce LeWarne, 2002-07-01 Postmaster General James A Farley's famous toast to the forty seven states and the soviet of Washington introduces and sets the tone for this study of Washington State radicalism. The state's colorful reputation for radical movements was established in the 1920s and 1930s by free speech fights, strikes, strong labor organizations and woman suffrage reforms. Charles LeWarne finds the roots of this radicalism in the communitarian experiments of the late nineteenth century. Through analyses of several of these experiments, LeWarne demonstrates that the influence of a coterie of liberals and radicals centered on Puget Sound in such communities as Home, Burley, Freeland, Equality and Port Angeles was felt in the state long after the utopias they came to colonize had ceased to exist. Probably the most famous of the experiments was Home Colony on Joe's Bay near Tacoma. From a nucleus of three families, Home grew to over two hundred residents and lasted for more than twenty years. Its reputation for anarchism and flamboyance contributed to a jail sentence conviction for one editor of the Home newspaper for publishing an editorial called *The Nude and the Prudes*. Readers interested in current social movements and lifestyles will find many enlightening parallels with recent communal attempts, particularly the rejection of traditional values and the belief in a perfectible world. Whatever the differences within individual colonies, the communitarian ideal has certain general characteristics that find their way into each of these attempts to form a perfect society. Historians will welcome this treatment of an important part of the social and cultural history of the area. The book contains a mine of previously scattered information on the subject. It is a delightful footnote to the history of the Puget Sound region. Utopias and Utopians Richard C.S. Trahair, 2013-10-31 Utopian ventures are worth close attention to help us understand why some succeed and others fail for they offer hope for an improved life on earth. *Utopias and Utopians* is a comprehensive guide to utopian communities and their founders. Some works look at literary utopias or political utopias etc and others examine the utopias of only one country. This work examines utopias from antiquity to the present and surveys utopian efforts around the world. Of more than 600 alphabetically arranged entries, roughly half are descriptions of utopian ventures, the other half are biographies of those who were involved. Entries are followed by a list of sources and a general bibliography concludes the volume. *America's Communal Utopias* Donald E. Pitzer, 2010-01-20 From the Shakers to the Branch Davidians, America's communal utopians have captured the popular imagination. Seventeen original essays here demonstrate the relevance of such groups to the mainstream of American social, religious and economic life. The contributors examine the beliefs and practices of the most prominent utopian communities founded before 1965, including the long overlooked Catholic monastic communities and Jewish agricultural colonies. Also featured are the Ephrata Baptists, Moravians, Shakers, Harmonists, Hutterites, Inspirationists of Amana, Mormons, Owenites, Fourierists, Icarians, Janssonists, Theosophists, Cyrus Teed's Koreshans and Father Divine's Peace Mission. Based on a new conceptual framework known as developmental communalism, the book examines these utopian movements throughout the

course of their development before during and after their communal period Each chapter includes a brief chronology giving basic information about the group discussed An appendix presents the most complete list of American utopian communities ever published The contributors are Jonathan G Andelson Karl J R Arndt Pearl W Bartelt Priscilla J Brewer Donald F Durnbaugh Lawrence Foster Carl J Guarneri Robert V Hine Gertrude E Huntington James E Landing Dean L May Lawrence J McCrank J Gordon Melton Donald E Pitzer Robert P Sutton Jon Wagner and Robert S Weisbrot Encyclopedia of American Social Movements Immanuel Ness, 2015-07-17 This four volume set examines every social movement in American history from the great struggles for abolition civil rights and women s equality to the more specific quests for prohibition consumer safety unemployment insurance and global justice

The Forested Land Robert E. Ficken, 2012-06-27

Skid Road Josephine Ensign, 2021-08-03 A compelling look at the historical roots of poverty and homelessness the worthy and unworthy poor and the role of charity health care and public policy in the United States Home to over 730 000 people with close to four million people living in the metropolitan area Seattle has the third highest homeless population in the United States In 2018 an estimated 8 600 homeless people lived in the city a figure that does not include the significant number of hidden homeless people doubled up with friends or living in and out of cheap hotels In Skid Road Josephine Ensign digs through layers of Seattle history past its leaders and prominent citizens respectable or not to reveal the stories of overlooked and long silenced people who live on the margins of society The sometimes fragmentary tales of these people their lives and deaths are not included in official histories of a place How Ensign asks has a large socially

progressive city like Seattle responded to the health needs of people marginalized by poverty mental illness addiction racial ethnic sexual identities and homelessness Drawing on interviews and extensive research Ensign shares a diversity of voices within contemporary health care and public policy debates Informed by her own lived experience of homelessness as well as over three decades of work as a family nurse practitioner providing primary health care to homeless people Ensign is uniquely situated to explore the tensions between caregiving and oppression as well as charity and solidarity that polarize perspectives on homelessness throughout the country A timely story in light of the ongoing health care reform debate the affordable housing crisis and the COVID 19 pandemic the stories from Skid Road illuminate issues surrounding poverty and homelessness throughout America

The Pacific Northwest Raymond D. Gastil, Barnett Singer, 2010-04-23 The Pacific Northwest for the purposes of this book mostly Oregon and Washington has sometimes been seen as lacking significant cultural history Home to idyllic environmental wonders the region has been plagued by the notion that the best and brightest often left in search of greater things that the mainstream world was thousands of miles away or at least as far south as California This book describes the Pacific Northwest's search for a regional identity from the first Indian European contacts through the late twentieth century identifying those individuals and groups who at least struggled to give meaning to the Northwest experience It places particular emphasis on writers and other celebrated individuals in the arts detailing how their lives and works both reflected the region and also enhanced its sense of self

Emma Goldman Kathy E. Ferguson, 2011-04-16 Emma Goldman has often been read for her colorful life story her lively if troubled sex life and her wide ranging political activism Few have taken her seriously as a political thinker even though in her lifetime she was a vigorous public intellectual within a global network of progressive politics Engaging Goldman as a political thinker allows us to rethink the common dualism between theory and practice scrutinize stereotypes of anarchism by placing Goldman within a fuller historical context recognize the remarkable contributions of anarchism in creating public life and open up contemporary politics to the possibilities of transformative feminism

Race, Radicalism, Religion, and Restriction Kristofer Allerfeldt, 2003-03-30 In 1924 America passed legislation that effectively outlined which immigrants were to be considered beneficial to the national body and which were not Albert Johnson a Washington State Congressman sponsored the Act This study examines the role of the Pacific Northwest in the change of national sentiment that led up to this legislation Throughout the period this region experienced massive growth in its immigrant population Its forests and small towns were the scenes of many clashes with the alien radicals resulting in the creation of anti Catholic legislation and the laws against land ownership by the Japanese Analyzing issues of race religion and political radicalism Allerfeldt determines that the region was highly influential in the national debate Most immigration studies of this era focus on the East Coast or on California but Allerfeldt finds that Northwestern politicians and populists responding to regional events as much as national sentiments often set the national immigration agenda Diverse organizations such as the APA the Ku Klux Klan and the IWW

gained powerful local support and had significant influence on the region's attitudes towards immigrants. Rather than following California's lead in the opposition to Asian immigration, the Northwest actually set the path for its southern neighbor in many important aspects.
