Shiovitz, 2023 How and why was outdated racial content and specifically blackface minstrelsy not only permitted but in fact allowed to thrive during the 1930s and 1940s despite the rigid motion picture censorship laws which were enforced during this time Introducing a new theory of covert minstrelsy this book illuminates Hollywood's practice of capitalizing on the Africanist aesthetic at the expense of Black lived experience Through close examination of the musicals made during this period this book shows how Hollywood utilized a series of covert guises or subterfuges complicated and further masked by a film's narrative framing and novel technology to distract both censors and audiences from seeing the ways in which they were being fed a nineteenth century White narrative of Blackness Drawing on the annals of Hollywood's most popular and its extremely rare films Behind the Screen uncovers a half century of blackface application by delicately removing the individual layers of disguise through close analyses of films which paint tap dance swing and other predominantly Africanist forms in a negative light This book goes beneath the image of recognizable White performers including Al Jolson Eddie Cantor Fred Astaire and Eleanor Powell exploring the high cost of their onscreen representational politics The book also recuperates the stories of several of the Black artists whose labor was abused during the choreographic and filming process Some of the many newly documented stories include those of The Three Chocolateers The Three Eddies The Three Gobs The Peters Sisters Jeni Le Gon and Cora La Redd In stripping away the various disguises involved during Hollywood's Golden Age Behind the Screen recovers the visibility of Black artists whose names Hollywood omitted from the credits and whose identities America has written out of the national narrative Embodied Nostalgia Phoebe Rumsey, 2023-07-11 Embodied Nostalgia is a collection of interlocking case studies that focus on how social dance in musical theatre brings forth the dancer on stage as a site of embodied history cultural memory and nostalgia and asks what social dance is doing performatively

dramaturgically and critically in musical theatre The case studies in this volume are all Broadway musicals set during the Jazz Age 1910 1950 however performed and produced after that time creating a spectrum of nostalgic impulses that are interrogated for social and political resonance and meaning All reflect the fractures or changes in the social dance when brought to the stage and expose the complexities of the embodied nostalgia broadly interpreted as the physicalizing of community memories longings and historical meaning the dances carry with them Particular attention is focused on the Black ownership of the social dances and the subsequent appropriation cultural theft and forgotten legacies By approaching musical theatre through this lens of social dance always already deeply connected to notions of class and race and the politics of choreography therein a unique and necessary method to describing discussing and critically evaluating the body in motion in musical theatre is put forth
