Where Custer Fell Photographs Of The Little Bighorn Battlefield Then And Now:

Where Custer Fell James S. Brust, Brian C. Pohanka, Sandy Barnard, 2007-03-01 Historical and contemporary photographs accompany a narrative reflection on Lieutenant Colonel George Armstrong Custer's Last Stand at the Battle of Little Bighorn which includes personal accounts of battle veterans *Custer, the Seventh Cavalry, and the Little Big Horn* Mike O'Keefe, 2012-11-20 Since the shocking news first broke in 1876 of the Seventh Cavalry's disastrous defeat at the Little Big Horn fascination with the battle and with Lieutenant George Armstrong Custer has never ceased Widespread interest in the subject has spawned a vast outpouring of literature which only increases with time This two volume bibliography of Custer literature is the first to be published in some twenty five years and the most complete ever assembled Drawing on years of research Michael O Keefe has compiled entries for roughly 3 000 books and 7 000 articles and pamphlets Covering both nonfiction and fiction but not juvenile literature the bibliography focuses on events beginning with Custer's tenure at West Point during the 1850s and ending with the massacre at Wounded Knee in 1890 Included within this span are Custer's experiences in the Civil War and in Texas the 1873 Yellowstone and 1874 Black Hills expeditions the Great Sioux War of 1876-77 and the Seventh Cavalry's pursuit of the Nez Perces in 1877 The literature on Custer the Battle of the Little Big Horn and the Seventh Cavalry touches the entire American saga of exploration conflict and settlement in the West including virtually all Plains Indian tribes the frontier army railroading mining and trading Hence this bibliography will be a valuable resource for a broad audience of historians librarians collectors and Custer enthusiasts **A Companion to Custer and the Little Bighorn Campaign** Brad D. Lookingbill, 2019-09-18 An accessible and authoritative overview of the scholarship that has shaped our understanding of one of the most iconic battles in the history of the American West Combines contributions from an array of respected scholars historians and battlefield scientists Outlines the political and cultural conditions that laid the foundation for the Centennial Campaign and examines how George Armstrong Custer became its figurehead Provides a detailed analysis of the battle maneuverings at Little Bighorn paying special attention to Indian testimony from the battlefield Concludes with a section examining how the Battle of Little Bighorn has been mythologized and its pervading influence on American culture **Stricken Field** Jerome A. Greene, 2014-10-22 The Little Bighorn Battlefield National Monument is the site of one of America's most famous armed struggles but the events surrounding Custer's defeat there in 1876 are only the beginning of the story As park custodians American Indians and others have contested how the site should be preserved and interpreted for posterity the Little Bighorn has turned into a battlefield in more ways than one In Stricken Field one of America's foremost military historians offers the first comprehensive history of the site and its administration in more than half a century Jerome A Greene has produced a compelling account of one of the West's most hallowed and controversial attractions beginning with the battle itself and ending with the establishment of an American Indian memorial early in the twenty first century Chronicling successive efforts of the War Department and the

National Park Service to oversee the site Greene describes the principal issues that have confounded its managers from battle observances and memorials to ongoing maintenance visitor access and public use Stricken Field is a cautionary tale Greene elucidates the conflict between the Park Service's dual mission to provide public access while preserving the integrity of a historical resource He also traces the complex events surrounding the site including Indian protests in the 1970s and 1980s that ultimately contributed to the 2003 dedication of a monument finally recognizing the Lakotas Northern Cheyennes and other American Indians who fought there

After Custer Paul L. Hedren, 2012-09-04 Between 1876 and 1877 the U S Army battled Lakota Sioux and Northern Cheyenne Indians in a series of vicious conflicts known today as the Great Sioux War After the defeat of Custer at the Little Big Horn in June 1876 the army responded to its stunning loss by pouring fresh troops and resources into the war effort In the end the U S Army prevailed but at a significant cost In this unique contribution to American western history Paul L Hedren examines the war's effects on the culture environment and geography of the northern Great Plains their Native inhabitants and the Anglo American invaders As Hedren explains U S military control of the northern plains following the Great Sioux War permitted the Northern Pacific Railroad to extend westward from the Missouri River The new transcontinental line brought hide hunters who targeted the great northern buffalo herds and ultimately destroyed them A de buffaloeed prairie lured cattlemen who in turn spawned their own culture Through forced surrender of their lands and lifeways Lakotas and Northern Cheyennes now experienced even more stress and calamity than they had endured during the war itself The victors meanwhile faced a different set of challenges among them providing security for the railroad crews hide hunters and cattlemen Hedren is the first scholar to examine the events of 1876-77 and their aftermath as a whole taking into account relationships among military leaders the building of forts and the army's efforts to memorialize the war and its victims Woven into his narrative are the voices of those who witnessed such events as the burial of Custer the laying of railroad track or the sudden surround of a buffalo herd Their personal testimonies lend both vibrancy and pathos to this story of irreversible change in Sioux Country

Four Fields Tim Dee, 2016-01-12 In this book Tim Dee tells the story of four green fields spread around the world their grasses their hedges their birds their skies and both their natural and human histories These four fields walkable mappable man made mowable knowable but also secretive mysterious wild contested and changing play central roles in the sweeping panorama of world history and in the lives of individuals In Dee's telling a field is never just a setting for great battles or natural disasters though it is often this as well A field is the oldest and simplest and truest measure of what a man needs in life especially when looked at contemplated worked in lived with and written about Dee's four fields which he has known and studied for more than twenty years are the fen field at the bottom of his private garden a field in southern Zambia a prairie in Little Bighorn Montana and a grass meadow in the Exclusion Zone at Chernobyl Ukraine Meditating on these four fields Dee makes us look anew at where we live and how He argues that we must attend to what we have made of the wild

A Surgeon with Custer at the Little

Big Horn James Madison DeWolf, 2017-05-25 In spring 1876 a physician named James Madison DeWolf accepted the assignment of contract surgeon for the Seventh Cavalry becoming one of three surgeons who accompanied Custer's battalion at the Battle of the Little Big Horn. Killed in the early stages of the battle, he might easily have become a mere footnote in the many chronicles of this epic campaign, but he left behind an eyewitness account in his diary and correspondence. *A Surgeon with Custer at the Little Big Horn* is the first annotated edition of these rare accounts since 1958 and the most complete treatment to date. While researchers have known of DeWolf's diary for many years, few details have surfaced about the man himself. In *A Surgeon with Custer at the Little Big Horn*, Todd E. Harburn bridges this gap, providing a detailed biography of DeWolf as well as extensive editorial insight into his writings. As one of the most highly educated men who traveled with Custer, the surgeon was well equipped to compose articulate descriptions of the 1876 campaign against the Indians, a fateful journey that began for him at Fort Lincoln, Dakota Territory, and ended on the battlefield in eastern Montana Territory. In letters to his beloved wife Fannie and in diary entries reproduced in this volume exactly as he wrote them, DeWolf describes the terrain, weather conditions, and medical needs that he and his companions encountered along the way. After DeWolf's death, his colleague Dr. Henry Porter, who survived the conflict, retrieved his diary and sent it to DeWolf's widow. Later, the DeWolf family donated it to the Little Bighorn Battlefield National Monument. Now available in this accessible and fully annotated format, the diary along with the DeWolf's personal correspondence serves as a unique primary resource for information about the Little Big Horn campaign and medical practices on the western frontier. **Little Bighorn** Michael L. Lawson, 2009 On June 25, 1876, the United States Army suffered the worst defeat of all its battles with Native Americans. Allied Sioux and Northern Cheyenne warriors successfully turned back a surprise attack on their village near the Little Bighorn River in Montana. Killed in the battle were Lieutenant Colonel George Armstrong Custer, the colorful and controversial commanding officer of the 7th Cavalry Regiment, and 267 men under his command. *Little Bighorn* traces the events that led to this historic confrontation, which, though a great tactical victory for the Native American warriors and the families they fought to protect, also set in motion a series of negative events for the Sioux and their allies. *Death at the Little Bighorn* Phillip Thomas Tucker, 2017-01-17 On the hot Sunday afternoon of June 25, 1876, Lieutenant Colonel George Armstrong Custer decided to go for broke. After dividing his famed 7th Cavalry, he ordered his senior officer, Major Marcus A. Reno, to strike the southern end of the vast Indian encampment along the Little Bighorn River, while Custer would launch a bold flank attack to hit the village's northern end. Custer needed to charge across the river at Medicine Tail Coulee Ford. We all know the ultimate outcome of this decision, but this groundbreaking new book proves that Custer's tactical plan was not so ill conceived. The enemy had far superior numbers and more advanced weaponry. But Custer's plan could still have succeeded, as his tactics were fundamentally sound. Relying on Indian accounts that have been largely ignored by historians, this is also a story of the Sioux and Cheyenne warriors. Custer's last move was repulsed, resulting in withdrawal to the high

ground above the ford and it was here on the open and exposed slopes and hilltops that Custer and his five companies were destroyed in systematic fashion This book tells for the first time the forgotten story of the true turning point of America's most iconic battle Skyhorse Publishing as well as our Arcade imprint are proud to publish a broad range of books for readers interested in history books about World War II the Third Reich Hitler and his henchmen the JFK assassination conspiracies the American Civil War the American Revolution gladiators Vikings ancient Rome medieval times the old West and much more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home

A Life Cut Short at the Little Big Horn Todd E. Harburn, 2023-02-23 Of the three physicians at the Battle of the Little Big Horn Doctor George Edwin Lord 1846-76 was the lone commissioned medical officer an assistant surgeon with the United States Army's 7th Cavalry one more soldier caught up in the U.S. government's efforts to fulfill what many people believed was the young country's Manifest Destiny A Life Cut Short at the Little Big Horn tells Lord's story for the first time Notable for its unique angle on Custer's last stand and for its depiction of frontier era medicine the book is above all a compelling portrait of the making of an army medical professional in mid nineteenth century America Drawing on newly discovered documents Todd E Harburn describes Lord's education and training at Bowdoin College in Maine and the Chicago Medical College detailing what the study of medicine entailed at the time for a young man of promise held in universal esteem Lord's time as a contract physician with the army took him in 1874 to the U.S. Northern Boundary Survey From there Harburn recounts how after a failed romance and the rigors of the U.S. Army Medical Board examination the young doctor proceeded to his first and only appointment as a post surgeon at Fort Buford in Dakota Territory What followed of course was Lord's service and his death in the Little Big Horn campaign which this book shows us for the first time from the unique perspective of the surgeon A portrait of a singular figure in the milieu of the American military's nineteenth century medical elite A Life Cut Short at the Little Big Horn offers a close look at a familiar chapter in U.S. history and a reminder of the humanity lost in a battle that resonates to this day
