CHANGE! Scott Myers-Lipton, 2022-02-23 *CHANGE: A Guide to Teaching Social Action* is for faculty staff and students who are interested in developing a college course or co-curricular experience using social action. Social action occurs when everyday people band together to develop their power in order to change policy. What distinguishes a social action class from other social change courses is that students are actively involved in enacting a policy change of their choice, thus providing students with a first-hand experience of democracy and power. As part of the social action class, students can start a new campaign, keep a campaign going from the previous semester, reactivate a campaign from a previous year, or join a community campaign. The goal of this book is to train the next generation of democratic citizens and participants. The hope is that if teaching social action is mainstreamed in higher education, students will be able to do democracy more effectively and help to preserve it at the same time. More specifically, the book provides an overview of the history of college social action, explores what needs to be considered before starting a social action class, explains how students choose their campaigns and launch them, and how students plan, implement, and evaluate their campaigns. **Macro Practice in Social Work for the 21st Century** Stephen Burghardt, 2010-06-02 This book provides a holistic vision for macro practice in the early 21st century.
