Discourses in English Language Teaching Textbooks Christopher A. Smith, 2022-08-11 Textbooks are indispensable components and in some cases the cornerstones of the mission of English Language Teaching (ELT). However, they are artefacts of a pedagogical culture that rarely echo the concerns of their most prolific consumers: teachers and students. This book offers a useful framework for evaluating ELT textbooks from a critical discourse perspective, one that is based on sound current research but also offers practical guidance to teachers. Building from a foundational understanding of ELT textbooks, the author presents a systematic procedure to critically analyze their multimodal discourse, examine how those discourses are negotiated between teachers and students in class, and measure how those consumers privately value the lessons. The
