

- Never operate the snowthrower without good visibility or light. Always be sure of your footing, and keep a firm hold on the handle. Walk; never run.

Maintenance and Storage

- Check all fasteners at frequent intervals for proper tightness to be sure that the equipment is in safe working condition.
- Never store the machine with fuel in the fuel tank inside a building where ignition sources are present, such as hot water and space heaters and clothes dryers. Allow the engine to cool before storing in any enclosure.
- Always refer to this operator's manual for important details if the snowthrower is to be stored for an extended period.
- Maintain or replace safety and instruction labels when necessary.

Toro Snowthrower Safety

The following list contains safety information specific to Toro products or other safety information that you must know.

- Rotating rotor auger/impeller can cut off or injure fingers or hands. Stay behind the handle and away from the discharge opening while operating the snowthrower. Keep your face, hands, feet, and any other part of your body or clothing away from moving or rotating parts.
- Before adjusting, cleaning, inspecting, troubleshooting, or repairing the snowthrower, stop the engine, remove the key, and wait for

all moving parts to stop. Disconnect the wire from the spark plug and keep it away from the spark plug to prevent someone from accidentally starting the engine.

- To unlog the discharge chute, stay in the operating position and release the left hand (traction) lever. While running the auger/impeller, push down on the handle to raise the front of the snowthrower a few inches (centimeters) off the pavement. Then lift the handle quickly to bump the front of the snowthrower on the pavement. Repeat if necessary until a stream of snow comes out the discharge chute.
- If you cannot unlog the discharge chute by bumping the front of the snowthrower, stop the engine, wait for all moving parts to stop, and use a stick; never use your hand.
- Do not wear loose-fitting clothing that could get caught in moving parts.
- If a shield, safety device, or decal is damaged, illegible, or lost, repair or replace it before beginning operation.
- Do not smoke while handling gasoline.
- Do not touch the engine while it is running or soon after it has stopped because the engine may be hot enough to cause a burn.
- When storing the snowthrower for more than 30 days, drain the fuel from the fuel tank to prevent a potential hazard. Store fuel in an approved fuel container. Remove the key from the ignition switch before storing the snowthrower.
- Purchase only genuine Toro replacement parts and accessories.
