Microbial Drivers of Sociality - from Multicellularity to Animal Societies Dino McMahon, Peter H. W. Biedermann, Marko Rohlf, Joël Meunier, 2021-10-13 **Commonwealth and Covenant** Marcia Pally, 2016-03-02 In *Commonwealth and Covenant* Marcia Pally argues that in order to address current socioeconomic problems we need not more economic formulas but rather a better understanding of how the world is set up an ontology of how we and the world work Without this good proposals that arise lack political will and go unimplemented Pally describes our basic setup as separability amid situatedness or distinction amid relation Though we are all unique individuals we become our singular selves through our relations and responsibilities to the people and environments around us Pally argues that our culture s overemphasis on separability individualism run amok results in greed adversarial and deceitful political discourse and chicanery resource grabbing broken relationships and anomie Maintaining that separability and situatedness can and must be considered together in public policy Pally draws on intellectual history philosophy and especially historic Christian and Jewish theologies of relationality to construct a new framework for addressing present economic and political ills

Gilson's work on Scotus has been put into English with an introduction by Trent Pomplun and an afterword by John Millbank. Scotus contributed to the development of a metaphysical system that was compatible with Christian doctrine and an epistemology that altered the 13th century understanding of human knowledge and a theology that stressed both divine and human will. Gilson in turn offers a thoroughly comprehensive introduction to the fundamental positions that Scotus stood for. Explaining Scotus's views on metaphysics, the existence of infinite being and divine nature, the matter of the physical, spiritual and angelic intellectual knowledge and will, and Scotus' relationship with other scholars, Gilson and Colbert show how deeply Scotus left a mark on discussions of such disparate topics as the semantics of religious language, the problem of universals, divine illumination and the nature of human freedom. This work has been translated from the original work in French, Jean Duns Scot, *Introduction ses positions fondamentales*, 1952, by Librairie Philosophique J Vrin.

Social Influence Mark P. Zanna, James M. Olson, C. P. Herman, 2014-03-05. First published in 1987. This volume presents papers from the Fifth Ontario Symposium on Personality and Social Psychology held at the University of Waterloo, August 21-23, 1984. The contributors are active researchers in the area of social influence. One of the purposes of this volume is to provide an accurate picture of our current knowledge about social influence processes. Thus the chapters describe important recent developments in this area. A second and perhaps more important purpose of this volume is to bring together scholars with different perspectives on the social influence process in order to stimulate further research and theorizing in this area.

Myth and the Christian Nation Burton L. Mack, 2014-12-18. America is widely regarded as the ultimate Christian Nation. Religious language has always been at the forefront of American politics, but this has increased since the events of 9/11. *Myth and the Christian Nation* presents a startling analysis of how and why Christianity and national identity have been woven together in recent American political discourse. Drawing on examples of religious myth making across the ancient world, *Myth and the Christian Nation* brings the weight of history to bear on America today, a place where myth, monotheism, sovereignty and power can be harnessed together in the service of specific interests. The book invites readers to rethink the role of religion in the construction of social democracy and to see America afresh.
