Bordered Cities and Divided Societies Scott A. Bollens, 2021-03-18 *Bordered Cities and Divided Societies* is a provocative moving and poetic encounter with the hearts and minds of individuals living in nine cities of conflict violence and healing Jerusalem Belfast Johannesburg Nicosia Sarajevo Mostar Barcelona Bilbao and Beirut Based on research spanning 25 years including 360 interviews and over two and a half years of in country field research this innovative work employs a series of concise reflective narrative essays grouped into four thematic sections to provide a humanistic on the ground understanding of divided cities conflict and peacemaking Incorporating both scholarly analyses based on empirical research and introspective essays Bollens digs underneath grand narratives of conflict to illuminate the complexities and paradoxes of living amid nationalistic political strife and the challenges of planning and policymaking in divided societies Richly illustrated the book includes informative synopses about the cities that provide access for general readers while extensive connections to recent literature enhance the book's research value to scholars **The Order of Victimhood** Sarah E.

Jankowitz, 2018-10-03 This book explores how the construction and contestation of victims in societies emerging from conflict impact processes of peacebuilding It locates its inquiry in Northern Ireland where highly politicized unresolved narratives of violence and a so called hierarchy of victims illuminate inherent paradoxes of victimhood in intergroup conflict The author critiques how mechanisms designed to address the legacy of conflict often reify exclusive victim and perpetrator identities and obscure complex harm Adopting an interdisciplinary lens the book examines how the image of the ideal victim interacts with intergroup processes in a polarizing and intractable victim perpetrator paradigm The analysis of these issues in Northern Ireland suggests that exclusive policies and mechanisms reinforce rather than repair societal divisions and that inclusive complex approaches to victimhood are necessary to build sustainable peace This book will be of particular interest to scholars of peace studies transitional justice and criminology **The Disappeared** Sandra Peake, Orla Lynch, 2024-09-02 This short book focuses on the Disappearances that occurred during the Troubles in Northern Ireland Using in depth interviews with thirteen families of those individuals who were abducted murdered and secretly buried from the 1970s onwards this book examines the experience of the families and communities left behind Through an exploration of the historic and cultural origins of the contemporary IRA and how they came to be in the position of power within Catholic Nationalist communities during the troubles the context to the disappearances are presented This book reviews the journey undertaken by the families from the initial disappearance of their loved one and the suffocating silence that followed through their coming together as a self help group It follows their lobbying on a national and international basis leading to the return of the bodies of some of their loved ones and the solidarity which leads them to fight on as a group to recover the bodies that remain missing It also examines the involvement of the British and Irish and American governments in the set up of the International Commission for the Location of Victims' Remains and tells the story of the Clinton's personal involvement in

supporting the families in their ongoing quest for recovery It is written accessibly for researchers and practitioners

Painting History Tony Crowley, 2025-09-16 Painting History The Murals of Northern Ireland 1908 2024 is the first book length study of the oldest and most enduring tradition of political wall art Tony Crowley shows how muralism became an important medium for the unionist and loyalist community in its political domination of public space before and after Partition The text also demonstrates that nationalists and republicans painted few murals before the start of the 1981 Hunger Strike during which they painted wall art across republican areas of Northern Ireland as a way of publicizing their cause In the context of a divided society by the mid 1980s murals had become an established genre for the expression of political demands and aspirations In Painting History Tony Crowley provides a detailed analysis of the complex tradition of muralism in the context of the history that produced it with particular attention given to the cultural politics of this remarkable form The book also raises and discusses a series of theoretical questions about murals and muralism that transcend Northern Ireland issues of propriety and legality form and content authority and censorship The work ends with a consideration of the future of the murals in a still polarized but changing region Incomplete Secession after Unresolved Conflicts Ana Maria Albulescu, 2021-10-20 This book analyses cases of incomplete secession after separatist wars and what this means for relations between central governments and de facto states The work explores the interplay between violence and power by examining the micro dynamics inherent in the process of escalation between separatists and central governments These dynamics affect not only the security interactions between these entities but also the character of political and governance relations that are built in the aftermath of secessionist war The book provides comprehensive analyses of the evolution of post conflict relations between the Republic of Moldova and Transnistria and between Georgia and South Ossetia and Abkhazia Beyond these empirical and conceptual examples the book contributes to a key debate in International Relations that addresses the relationship between democratisation nationalism and violence and its applicability to the study of escalation in the post Soviet space This book will be of much interest to students of secession statehood conflict studies democratisation post Soviet politics and International Relations in general Chapter 2 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license Unfinished Peace Brian Rowan, 2015 In this landmark book veteran journalist and commentator Brian Rowan explores a still unfinished peace examining the conflict period with the benefit of hindsight and highlighting the issues which still dominate our present He is assisted by a ground breaking collection of newly written accounts from key individuals including public figures loyalists and republicans those working behind the scenes and the ordinary people who have experienced loss and hurt Page 4 of cover The Politics of Memoir and the Northern Ireland Conflict Stephen Hopkins, 2013 This book examines memoir writing by many of the key political actors in the Northern Irish Troubles 1969-1998 and argues that memoir has been a neglected dimension of the study of the legacies

of the violent conflict It investigates these sources in the context of ongoing disputes over how to interpret Northern Ireland's recent past A careful reading of these memoirs can provide insights into the lived experience and retrospective judgments of some of the main protagonists of the conflict The period of relative peace rests upon an uneasy calm in Northern Ireland Many people continue to inhabit contested ideological territories and in their strategies for shaping the narrative telling of the conflict key individuals within the Protestant Unionist and Catholic Irish Nationalist communities can appear locked into exclusive and self justifying discourses In such circumstances while some memoirists have been genuinely self critical many others have utilised a post conflict language of societal

The Chechen Wars Matthew Evangelista, 2004-05-13 Following the breakup of the Soviet Union Boris Yeltsin improvised a system of asymmetric federalism to help maintain its successor state the Russian Federation However when sparks of independence flared up in Chechnya Yeltsin and later Vladimir Putin chose military action to deal with a brushfire that they feared would spread to other regions and eventually destroy the federation Matthew Evangelista examines the causes of the Chechen Wars of 1994 and 1999 and challenges Moscow's claims that the Russian Federation was too fragile to withstand the potential loss of one rebellious republic He suggests that the danger for Russia lies less in a Soviet style disintegration than in a misguided attempt at authoritarian recentralization something that would jeopardize Russia's fledgling democratic institutions He also contends that well documented acts of terrorism by some Chechen fighters should not serve as an excuse for Russia to commit war crimes and atrocities Evangelista urges emerging democracies like Russia to deal with violent internal conflict and terrorism without undermining the fundamental rights and freedoms of their citizens He recommends that the United States and other democracies be more attentive to Moscow's violations of human rights and in their own struggle against terrorism provide a kind of role model

How Not to Make Peace Robert L. Rothstein, 2006

Identification of Potential Terrorists and Adversary Planning Theodore J. Gordon, Jerome C. Glenn, Yair Sharan, 2017-03-15 Never before have technological advances had so great an impact on security not only increasing the nature and level of threats but also for the possibility of providing the means to address the threats Technologies that could increase security include ubiquitous and omnipresent surveillance systems the use of new algorithms for big data improving bio and psycho metrics and artificial intelligence and robotics Yet trustworthy and reliable partners and an active and alert society remain sine qua non to reduce terrorism To my mind this publication is one of the best studies of modern terrorism and what to do about it that we have at our disposal So I am confident that it will find a wide readership not only in academic or think tank circles but even more importantly among policy makers and government officials They stand to benefit most and they can afford least of all to ignore the important conclusions and recommendations that this wise publication has provided
