United Arab Emirates Policy Making Contemporary:

Dynamics of Arab Foreign Policy-Making in the Twenty-First Century Hassan Hamdan Al-Alkim, 2012-04-16 The Arab world's strategic location and its considerable material and human potential should allow it to play a major role in world affairs. However, in addition to sharing language, culture, and history, Arab states also face common challenges: authoritarian regimes, ethnic and social cleavages, economic underdevelopment, and the need for security from the West. Hassan Hamdan al-Alkim examines the dynamics of Arab foreign policy making in the twenty-first century, taking account of the current political developments in the Arab world since January 2011. Through an insightful analysis of pivotal issues such as the Middle East Peace Process, the food and water crisis, and Saudi Arabia's foreign policy, Alkim brings us closer to a nuanced understanding of contemporary Arab politics and its role in world affairs. This balanced and discerning study is essential reading for policy makers, academics, and students of Middle Eastern politics. The United Arab Emirates Kristian Coates

Ulrichsen, 2016-12-01 Led by Dubai and Abu Dhabi, the UAE has become deeply embedded in the contemporary system of international power politics and policy making. Only an independent state since 1971, the seven emirates that constitute the UAE represent not only the most successful Arab federal experiment but also the most durable. However, the 2008 financial crisis and its aftermath underscored the continuing imbalance between Abu Dhabi and Dubai and the five northern emirates. Meanwhile, the post-2011 security crackdown revealed the acute sensitivity of officials in Abu Dhabi to social inequalities and economic disparities across the federation. The United Arab Emirates: Power, Politics, and Policymaking charts the various processes of state formation and political and economic development that have enabled the UAE to emerge as a significant regional power and major player in the post-Arab Spring reordering of Middle East and North African politics, as well as the closest partner of the US in military and security affairs in the region. It also explores the seamier underside of that growth in terms of the condition of migrant workers, recent interventions in Libya and Yemen, and latterly one of the highest rates of political prisoners per capita in the world. The book concludes with a discussion of the likely policy challenges that the UAE will face in coming years, especially as it moves towards its fiftieth anniversary in 2021. Providing a comprehensive and accessible assessment of the UAE, this book will be a vital resource for students and scholars of International Relations and Middle East Studies, as well as non-specialists with an interest in the United Arab Emirates and its global position. *Policy Styles and Policy-Making* Michael Howlett, Jale Tosun, 2018-10-26 Richardson et al.'s respected and seminal *Policy Styles in Western Europe* (1982) shed valuable light on how countries tend to establish long-term and distinctive ways to make policies that transcend short-term imperatives and issues. This follow-up volume updates those arguments and significantly expands the coverage, consisting of 16 carefully selected country-level case studies from around the world. Furthermore, it includes different types of political regimes and developmental levels to test more widely the robustness of the patterns and variables highlighted in the original book. The case studies cover countries from the United States, Canada, Germany, and the UK to

Russia Togo and Vietnam follow a uniform structure combining theoretical considerations and the presentation of empirical material to reveal how the distinct cultural and institutional features of modern states continue to have implications for the making and implementation of public policy decisions within them The book is essential reading for students and scholars of public policy public administration comparative politics and development studies

Policy-Making in the GCC Neil Quilliam, Mark C. Thompson, 2017-09-11 The GCC is a major player in the post 2011 reordering of the Middle East Despite the rise in prominence of individual Gulf states especially Kuwait Qatar Saudi Arabia and the United Arab Emirates and the growth of the GCC as a collective entity surprisingly little attention has been paid to the actual mechanics of policy making in the region This book analyses the vital role that institutions are coming to play in shaping policy in the Gulf Arab states The research coincides with two key developments that have given institutions new importance in the policy process the emergence of a new generation of leaders in the Gulf and the era of low oil prices Both developments along with dramatic demographic change have compelled state and citizens to re evaluate the nature of the social contract that binds them together Contributors assess the changing relationship between state and citizen and evaluate the role that formal and informal institutions play in mediating such change and informing policy The book shows how academic social and economic institutions are responding to the increasingly complex process of decision making where citizens demand better services and further empowerment and states are obliged to seek wider counsel although wanting to retain ultimate authority With contributions from both academics and practitioners this book will be highly relevant for researchers and policymakers alike

The Foreign Policy of the United Arab Emirates Hassan Hamdan al- Alkim, Hassan Hamdan Alkim, 1989 Foreign Policy has been crucial to the UAE ever since its birth in 1971 following Britain s decision to withdraw from the Gulf How is the federation s foreign policy formulated What are the internal and external pressures which shape it How can a small Gulf state survive in the modern

world Dr Hassan Hamdan al Alkim himself a UAE national has not only studied the Emirates policy making process in depth He has also interviewed some of those closely involved in it His detailed and fully documented study outlines the origins of the UAE and describes the evolution of its policies towards its neighbours the wider Arab world and the big powers Three illuminating case studies examine relations with Saudi Arabia and Iran and the UAE s attitude towards the Palestine question

Reorienting the Middle East Dale Hudson, Alia Yunis, 2024-01-16 Stories of desert landscapes cutting edge production facilities and lavish festivals often dominate narratives about film and digital media on the Arabian Peninsula However there is a more complicated history that reflects long standing interconnections between the Persian Gulf Arabian Sea and Indian Ocean Just as these waters are fluid spaces so too is the flow of film and digital media between cultures in East Africa Europe North Africa South Asia Southwest Asia and Southeast Asia *Reorienting the Middle East* examines past and contemporary aspects of film and digital media in the Gulf that might not otherwise be apparent in dominant frameworks Contributors consider oil companies that brought film exhibition to this area in the 1930s the first Indian film produced on the Arabian Peninsula in the late 1970s blackness in Iranian films the role of Western funding in reshaping stories Dubai s emergence in global film production uses of online platforms for performance art the development of film festivals and cinemas and short films made by citizens and migrants that turn a lens on racism sexism national identity and other rarely discussed social issues *Reorienting the Middle East* offers new methods to analyze the often neglected littoral spaces between nation states and regions and to understand the role of film and digital media in shaping dialogue between area studies and film and media studies Readers will find new pathways to rethink the limitations of dominant categories and frameworks in both fields

Monarchies in the Contemporary World Kana Inata,2025-11-01 Why are some constitutional monarchies allowed to survive and hold substantial political power even though they might fail to commit to non interference How do some constitutional monarchies intervene in democratic politics despite the lack of formal channels to do so While constitutional monarchs tend to be considered as powerless unselfish and politically neutral and hence received little scholarly attention *Monarchies in the Contemporary World* sheds fresh light on the significance of monarchs as one of the primary political agents during and even after the process of regime transformation Inata argues that monarchs popularity or military strength alone is insufficient for the survival of monarchies but that the survival of powerful constitutional monarchs can be rational given the risk of civil disobedience in the future This book also shows that despite the lack of de jure punishment mechanisms against monarchs e g abolition abdication de facto punishment mechanisms by the public can prevent constitutional monarchs from indiscriminately intervene in politics Drawing on a multi method approach that combines an original dataset on monarchical powers formal models and case studies this book examines the causes and consequences of the survival of constitutional monarchies opening up a new perspective to think about the issue of monarchical accountability

Russia and the GCC Diana Galeeva,2022-12-29 In recent decades Russia has played an increasingly active role in the Middle East as states within the region continue to diversify their relations with major external powers Yet the role of specific Russian regions especially those that share an Islamic identity with the GCC has been overlooked In this book Diana Galeeva examines the relations between the Gulf States and Russia from the Soviet era to the present day Using the Republic of Tatarstan one of Russia s Muslim polities as a case study Galeeva demonstrates the emergence of relations between modern Tatarstan and the GCC States evolving from concerns with economic survival to a rising paradiplomacy reliant on shared Islamic identities Having conducted fieldwork in the Muslim Republics of Tatarstan Bashkortostan and Dagestan the book includes interviews with high ranking political figures heads of religious organisations and academics Moving beyond solely economic and geopolitical considerations the research in this book sheds light on the increasingly important role that culture and shared Islamic identity play in paradiplomacy efforts
