US Destroyers 1934-45 Dave McComb, 2011-12-20 Since the beginning of the 20th century destroyers have been all purpose ships indispensable in roles large and small from delivering the mail at sea to screening other vessels and where larger ships were not present forming the front line in battle This title details the 169 ships of ten classes introduced in the 1930s early 1 500 tonners and 1 850 ton destroyer leaders designed to conform to the 1930 London Naval Treaty plus the

successor 1 570 ton Sims class and 1 620 and 1 630 ton Benson and Gleaves classes In wartime most 1 500 tonners and leaders initially saw front line duty in the Pacific but were relegated to secondary assignments as newer vessels arrived while the later 1 620 and 1 630 tonners became the standard destroyers of the Atlantic War This volume reveals the fascinating design story behind these pioneering classes from the constraints of peacetime treaties to advances in propulsion engineering and wartime modifications With an operational overview of their service and tables listing all ships by class builder and initial squadron this is the definitive guide to the pre war US destroyer classes United States Naval History United States.
