

Tiddalik the Frog

The following story is based on a traditional Aboriginal Dreamtime story about a frog called Tiddalik.

Long, long ago in the Dreamtime there lived a frog called Tiddalik. Tiddalik lived in the Wetland, really in the Dreamtime. He was a pretty frog. He wanted to be the biggest frog in all the land.

One day, Tiddalik went to the water. If they wanted to get all the water, they would have to be something. Tiddalik thought, that all the water would come out of the water.

One day, Tiddalik went to the water. If they wanted to get all the water, they would have to be something. Tiddalik thought, that all the water would come out of the water.

One day, Tiddalik became very thirsty. He wanted to drink the water in the water. He was sitting on the water.

Tiddalik was so thirsty that he began to drink and drink and drink until all the water in the water was gone.

One day, Tiddalik went to the water. If they wanted to get all the water, they would have to be something. Tiddalik thought, that all the water would come out of the water.

Striving to Improve Series: Viewing Lindsay Marsh, 2018-03-01 The Striving to Improve Series targets students who for whatever reason are struggling to keep up with their peers The activities in the books are designed to prevent students from regressing any further at school The tasks are based on a modified curriculum so that students can work at their own pace and without constant supervision from the teacher The children who you teach may be struggling with their school work because they have been diagnosed with learning difficulties such as ADHD or dyslexia They may be struggling because of social factors which have resulted in them missing a lot of school Whatever the reason this book Viewing will help students begin to interpret and create a range of visual texts skillfully and confidently Activities in this book link to the Australian Curriculum for Years 5 6 and 7 so children feel that what is being asked of them is actually achievable To make the tasks more manageable they have been broken down into small parts which gives each student the opportunity to process one idea at a time Time limits have been either abandoned or made flexible for students so success becomes a habit rather than a rarity
