Google Classroom is a free program for teachers and learners to collaborate. Teachers can create classes online, invite students to attend the class, and create and hand out assignments. Inside the forum, learners and teachers can interact with the assignments, and teachers can track the progress of students. To use this solution, schools can create a free Google Apps for Education account. Google Classroom offers teachers and students special features that are not part of traditional Google Accounts. For example, teachers may use the Formulas tool to add images and answers to questions with multiple choices. The Gmail Inbox app houses Classroom texts, allowing students and teachers to find highlights and main information with ease. By adding subjects to posts, teachers can coordinate their class streams, and students and teachers can search the streams to find different subjects. Google Classroom is perfect for parents too. Teachers can exchange student success summaries with their parents, and the latter can get automatic email summaries of class updates and student assignments.
