Uw Baan Staat Op De Tocht:

The Rise of the Dutch New Right Merijn Oudenampsen, 2020-09-13 In the past 20 years a wave of right wing populist movements has swept over Europe changing the face of European politics The Netherlands has been one of the more iconic countries to partake in this shift Known internationally as an emblem of progressivism and tolerance the country soon became a frontrunner in the revival of nationalist and anti immigrant sentiment This is the first study to offer an extensive engagement with the ideas behind the Dutch swing to the right The emergence of Dutch populism this book shows formed an integral part of a broader conservative tendency identified as the Dutch New Right In the US and the UK the term New Right has been used to describe conservative backlash movements that arose in opposition to the progressive movements of the 1960s The Dutch swing to the right this book argues formed a belated iteration of the New Right backlash that occurred overseas This text will be essential reading for students and scholars in the fields of European Studies and Political Science and Dutch politics and society more specifically

Muslims in the Margin W. A. R. Shadid, P. Sj. van Koningsveld, 1996 The involvement of minorities in politics has been the subject of a considerable number of studies However these studies are rarely concerned with the political role in Western Europe of both Islam as a mobilising factor and the Muslims as a religious group comparable with other confessional groups creating political parties The importance of political participation of Muslims for the improvement of their social economic and cultural position as well as for the establishing of religious infrastructure has been widely recognized by politicians and scientists alike As relative newcomers in Western Europe most Muslims still occupy a marginal position which makes their active political participation all the more urgent Over the last decades initiatives have been taken in several countries to create Islamic political parties At the same in most countries of Western Europe the established political parties are nominating members with an Islamic background among their candidates Furthermore many discussions have taken place about the feasibility of the integration of Islam within the European social and political systems Cabinet ministers and established political parties have developed views about the nature of Islam which are being crystalized in the policies of the national governments Central issues in these discussions are for instance the compatibility of Islam and parliamentary democracy and human rights the fear of religious fundamentalism and fanaticism as well as the oppression of women by Islam The present book contains fourteen contributions by specialists from various European countries

Rural protest groups and populist political parties Dirk Strijker, Gerrit Voerman, Ida Terluin, 2023-08-07 Some agricultural or rural protest groups in the Western world evolved into political parties often of a populist nature whereas others did not This book is the first to explore under which conditions this happens and to what extent current populist parties have agricultural or rural ties and related agendas Well known authors with a background in rural studies or in political sciences describe and analyse the situation in a number of Western countries the United Kingdom France Poland Austria the Netherlands Australia Finland The contributions in this book show that the accessibility and

responsiveness of the political system and the institutionalized agrarian interest groups as well as the existing political landscape are influencing the decisions of rural protest groups to found a political party. However nowadays the chances of these parties being successful are small due to the declining share of the agricultural sector within European societies. Although there will always be grounds for agrarian protest it seems safe to say that the heyday of agrarian populism is over.

Twenty-First Century Populism D. Albertazzi, D. McDonnell, 2007-12-14 *Twenty First Century Populism* analyses the phenomenon of sustained populist growth in Western Europe by looking at the conditions facilitating populism in specific national contexts and then examining populist fortunes in those countries. The chapters are written by country experts and political scientists from across the continent.

De islamisering van onze cultuur Pim Fortuyn, 2012-05-14 De publicatie in 1997 van het boek *Tegen de islamisering van onze cultuur* waarin Pim Fortuyn het drama van de multiculturele samenleving en de achtergronden van de uiterst moeizaam verlopende integratie behandelde bracht een storm van gemengde reacties teweeg. Naast beschuldigingen van racisme en onverdraagzaamheid viel de auteur een brede openlijke dan wel stilzwijgende steun ten deel omdat de feiten nu eenmaal feiten zijn en op den duur niet meer de loochenen zijn. De kern van Fortuyns betoog is dat de cultuur van de islam haaks staat op de waarden en normen van de moderne westerse samenleving. Hij pleit voor een krachtige dialoog tussen beide culturen om zo te komen tot wederzijds begrip met het woord als enige wapen.
