Automotive FDI in Emerging Europe A. J. Jacobs, 2017-06-19 This book examines the dramatic increase in automotive assembly plants in the former Socialist Central European CE nations of Czechia East Germany Hungary Poland and Slovakia from 1989 onwards Enticed by relatively lower wage labour and significant government incentives the world s largest automakers have launched more than 20 passenger car assembly complexes in CE nations with production accelerating dramatically since 2001 As a result the annual passenger car production in Western Europe declined by more than 20% between 2001 and 2015 and alternatively in the CEE it increased by nearly 170% during this period Drawing on case studies of 25 current and former foreign run assembly plants the author presents a rare historical account of automotive foreign assembly plants in the CE following this dramatic geographic shift This book will expand the knowledge of policy makers in Europe in relation to their pursuits of FDI and will be of great interest to scholars and students of business economic history political science and development

web algebraic number theory is a branch of number theory that uses the techniques of abstract algebra to study the integers rational numbers and their generalizations number theoretic questions are expressed in terms of properties of algebraic objects such as algebraic number fields and their rings of integers finite fields and function fields

algebraic number theory james milne - Sep 08 2023

web algebraic number theory studies the arithmetic of algebraic number fields the ring of integers in the number field the ideals and units in the ring of integers the extent to which unique factorization holds and so on
