 board jury incident of 1994 is one of the most disconcerting in English legal history possibly says the author the nadir of
 reported juror misbehaviour in the 20th century But as Professor Jeremy Gans shows in an era of soundbites it has been
 distorted by the media whilst even eminent lawyers have sometimes got the story wrong In this first full length treatment he
 emphasises the known facts the constitutional dilemma of investigating even bizarre jury misbehaviour and how the trial
 involved one of the most serious murder cases of the decade in which two people were shot in cold blood Stephen Young s

conviction after a re trial is still claimed to be a miscarriage of justice by some people as to which Gans puts forward his own ingenious solution But quite apart from analysing the facts of R v Young this book is a tour de force on jury misbehaviour in which the author also examines the implications for example of winks and nods research by jurors speaking or listening out of turn going to sleep during the hearing or falling in love with one of the advocates Amusing at first sight such events involve deep questions of law practice and democratic involvement in the Criminal Justice process Far from being a mere anecdote the case of the Ouija board jurors the misconceptions about it and the issues it leads to deserve close study by anyone who is even remotely interested in jury trial The first full length treatment of an iconic case Dispels the myths that have built up around it Looks at other instances of jury misbehaviour Shows how the courts and Parliament have wrestled with problems of this kind A first rate analysis of a baffling double murder American Rifleman ,1957 **The Book of Pistols & Revolvers** Walter Harold Black Smith,1960 **Guns Illustrated 2005** Ken Ramage,2004 Every firearm enthusiast collector and buyer will want this all encompassing reference with the most current information on today s latest and greatest guns This expanded 37th edition includes updated retail prices and gun specifications for revolvers rifles airguns shotguns and many more Up to date listings include over 1 500 photographs to aid in identification and make selecting and buying firearms easier Feature articles examine the latest trends in the industry and other related topics The Gundex references listings for all the firearms enabling readers to quickly locate a specific gun and the Directory of the Arms Trade includes updated listings of firearms manufacturers and importers **ABC's of Military Side Arms** David Blanchard,2017-04-28 ABC s of Military Side Arms showcases the history of pistols and revolvers from the past to present from the well known to the obscure Done in the style of a children s ABC book with a unique gun selected for each letter and its technical data and historical over view listed side by side ABC s of Military Side Arms is perfect for military history fans of all ages *Soviet Pistols* Leroy Thompson,2022-10-27 This is the absorbing story of the development combat use and legacy of the influential sidearms used by the armed forces of the Soviet Union Featuring archive and present day photography and specially commissioned artwork this is the story of the pistols that armed the forces of the Soviet Union and its allies during and after World War II In 1930 the TT a single action semi automatic pistol developed by Fedor Vasilyevich Tokarev and firing 7 62 25mm ammunition began to supplement the venerable Nagant M1895 revolver in Soviet military service From 1933 the TT 33 a simplified version was also issued all three would equip Soviet and proxy forces throughout and after World War II seeing action across the globe In 1951 a new pistol designed by Nikolay Fyodorovich Makarov entered Soviet service it became the primary Soviet military and police sidearm during the Cold War era and continued in use into the 21st century The 9 18mm Makarov round was used in various weapons used by Soviet allies notably the Czech vz 82 the Hungarian F G PA63 and the Polish P64 and P83 The PM was quickly joined by the Stechkin machine pistol Other specialized versions of the Makarov were developed including the PB suppressed version and the 5 45 18mm PSM a more compact version Initially
