

5 steps to starting solids

1

Start with single-grain baby cereals such as Gerber® Oatmeal or Rice.

Infant cereals are perfect for first tastes of baby food, and they have iron, an essential nutrient that helps support learning ability.

3

Introduce one variety at a time.

Check for allergies by waiting at least three days to introduce a new one.

4

Then try fruits and vegetables.

Look for single ingredient baby food so you can introduce one new flavor at a time.

2

Baby's first spoon

Dip the spoon tip into the cereal and place it to your baby's mouth. At first your baby may just eat a teaspoon or two at a time. That's okay!

5

Don't give up, and always introduce with a smile and a happy voice!

It may take up to 10 tries for your little one to enjoy a new food.
