What Is Urban History What Is History Series:

What is Urban History? Shane Ewen, 2016-09-12 Urban history is a well established and flourishing field of historical research Written by a leading scholar this short introduction demonstrates how urban history draws upon a wide variety of methodologies and sources and has been integral to the rise of interdisciplinary and comparative approaches to history since the second half of the twentieth century Shane Ewen offers an accessible and clearly written guide to the study of urban history for the student teacher researcher or general reader who is new to the field and interested in learning about past approaches as well as key themes concepts and trajectories for future research He takes a global and comparative viewpoint combining a discussion of classic texts with the latest literature to illustrate the current debates and controversies across the urban world The historiography of the field is mapped out by theme including new topics of interest with a particular focus on space and social identity power and governance the built environment culture and modernity and the growth and spread of transnational networking By discussing a number of historic and fast growing cities across the world What is Urban History demonstrates the importance of the history of urban life to our understanding of the world both in the present and the future As a result urban history remains pivotal for explaining the continued growth of towns and cities in a global context and is particularly useful for identifying the various problems and solutions faced by fast growing megacities in the developing world

Urban Space and Urban History in the Roman World Miko Flohr, 2020-05-25 This volume investigates how urban growth and prosperity transformed the cities of the Roman Mediterranean in the last centuries BCE and the first centuries CE integrating debates about Roman urban space with discourse on Roman urban history The contributions explore how these cities developed landscapes full of civic memory and ritual saw commercial priorities transforming the urban environment and began to expand significantly beyond their wall circuits These interrelated developments not only changed how cities looked and could be experienced but they also affected the functioning of the urban community and together contributed to keeping increasingly complex urban communities socially cohesive By focusing on the transformation of urban landscapes in the Late Republican and Imperial periods the volume adds a new explicitly historical angle to current debates about urban space in Roman studies Confronting archaeological and historical approaches the volume presents developments in Italy Africa Greece and Asia Minor thus significantly broadening the geographical scope of the discussion and offering novel theoretical perspectives alongside well documented thematic case studies Urban Space and Urban History in the Roman World will be of interest to anyone working on Roman urbanism or Roman history in the Late Republic and early Empire

Urban History 19:2 Kajal Lahiri, Geoffrey H. Lahiri, 1992-12-10 **Concepts of Urban-Environmental History** Sebastian Haumann, Martin Knoll, Detlev Mares, 2020-03-03 In history cities and nature are

often treated as two separate fields of research Concepts of Urban Environmental History aims to bridge this gap The contributions to this volume survey major concepts and key issues which have shaped recent debates in the field They address unresolved questions and future challenges As a handbook the collection offers a comprehensive overview for researchers and students both from a historical and an interdisciplinary background

Our Urban Planet in Theory and History Carl Nightingale, 2024-06-06 This Element offers seven propositions toward a theory of Our Urban Planet that is useful to global urban historians I argue that historians have much to offer to theorists particularly those involved in debates over planetary urbanization theory and the Anthropocene We must enlarge our concept of urban to include spaces that make cities possible and that cities make possible and become comfortable with longer temporal frames that nest global urban history within Earth Time Above all we need to add the crucial dimension of power redefining cities as spaces that humans produce to amplify harvests of geo solar energy and deploy human power within space and time The element uses insights from deep history to set the stage for a theory by verb elaborating the many paradoxes of humans 6 000 year gamble with the Urban Condition and explaining cities own intrinsic capacity to outrun their own theorizability
