What Every Woman Should Know About Cervical Cancer:

What Every Woman Should Know about Cervical Cancer Nenad Markovic, Olivera Markovic, 2008-05-22 Recent introduction of HPV vaccines has raised hopes for immunization against cervical cancer and for the first time in the history of humanity for eradication of one malignant disease This new opportunity has changed many current views on cervical cancer prevention control diagnosis and treatment Many canons and guidelines became subject of review and many revisions are coming This book is intended to summarize most of these events and to present them to all women in a language understandable by the eneral public We expect the book will bring all readers the rationale for optimism and will provide guidance as how to gain knowledge and skills for critical thinking and making an educated decision when it will be necessary in their lives

What Every Woman Should Know about Cervical Cancer Nenad Markovic, Olivera Markovic, 2016-12-19 This book an updated and extended edition is about mobilizing women and health care policy makers and providers to unite their efforts in a single strategy for fighting cervical cancer worldwide The objective of this strategy would be to reverse cervical cancer prevalence and mortality rates among all 2 4 billion women at risk and to achieve this goal within 10 15 years of implementation Cervical Cancer Screening Pap test VIA VILI or HPV failed to stop cervical cancer worldwide simply because many countries could not afford developing infrastructure necessary to carry on the global strategy and because the outreach could not accomplish the targeted 51% of the population at risk In 2015 there is still 600 000 women getting cervical cancer annually and 300 000 of them die Every minute one woman gets cervical cancer and every 2 minutes one woman dies from this preventable disease In 21st Century the Information Technology IT Revolution has made substantial impact on medicine enabling remote points of care scattered around the world to be e connected with experts in distant medical centers and to obtain quality diagnosis and proper guidelines for curative therapy of early stages of cervical cancer Low frequency of costly interventions needed makes IT based screening financially and socially beneficial for mass screening This new Mobile Health technology with the Global Strategy for Fighting Cervical Cancer is subject to elaboration in our book as the new hope when old efforts have failed to stop the world epidemics of this grave but preventable disease The language is adapted for easy reading and understanding by professionals and lay persons This book is intended for women at risk for cervical cancer their health care providers health insurance companies government responsible for making health policy and healthcare industry because all of them have special role in the new Global Strategy elaborated in details in this book
