Jesus from Outer Space Richard Carrier, 2020-10-20 The earliest Christians believed Jesus was an ancient celestial being who put on a bodysuit of flesh died at the hands of dark forces and then rose from the dead and ascended back into the heavens But the writing we have today from that first generation of Christians never says where they thought he landed where he lived or where he died The idea that Jesus toured Galilee and visited Jerusalem arose only a lifetime later in unsourced legends written in a foreign land and language Many sources repeat those legends but none corroborate them Why What exactly was the original belief about Jesus and how did this belief change over time In *Jesus from Outer Space* noted philosopher and historian Richard Carrier summarizes for a popular audience the scholarly research on these and related questions revealing in turn how modern attempts to conceal misrepresent or avoid the actual evidence calls into question the entire field of Jesus studies and present day beliefs about how Christianity began *Arms Control in Outer Space* United States. salvation and What Happened on the Cross shows why these were essential Using over 740 Scripture verses to make its argument the book gives a comprehensive picture from Genesis to Revelation of the many aspects involved in the accomplishment of salvation above all showing clearly that the cross had nothing to do with punishment for sins our sins were never punished upon the cross rather our sins were forgiven Understanding how salvation was accomplished upon the cross and that it was about forgiveness not punishment both exalts God and his greatness demonstrates his perfect love and justice as well as liberates our hearts towards him
