What is Cool? Marlene K. Connor, 2003 A profound personally engaged anatomy of the codes that have shaped and continue to shape black manhood Marlene Kim Connor reveals cool as a vital code of behaviors and attitudes that plays an often disregarded role in shaping the conception of manhood among young black boys In this thoughtful impassioned and provocative book Connor uncovers cool s history explores its essence and explains why even though it deserves praise cool often becomes an insidious force affective black American life today *The Cultural Career of Coolness* Ulla Haselstein, Irmela Hijiya-Kirschner, Catrin Gersdorf, Elena Giannoulis, 2013-10-10 Cool is a word of American English that has been integrated into the vocabulary of numerous languages around the globe Today it is a term most often used in advertising trendy commodities or more generally in promoting urban lifestyles in our postmodern age But what is the history of the term cool When has coolness come to be associated with certain modes of contemporary self fashioning On what grounds do certain nations claim a privilege to be recognized as cool These are some of the questions that served as a starting point for a comparative cultural inquiry which brought together specialists from American Studies and Japanese Studies but also from Classics Philosophy and Sociology The conceptual grid of the volume can be described as follows 1 Coolness is a metaphorical term for affect control It is tied in with cultural discourses on the emotions and the norms of their public display and with gendered cultural practices of subjectivity 2 In the course of the cultural transformations of modernity the term acquired new importance as a concept referring to practices of individual ethnic and national difference 3 Depending on cultural context coolness is defined in terms of aesthetic detachment and self irony of withdrawal dissidence and even latent rebellion 4 Coolness often carries undertones of ambivalence The situational adequacy of cool behavior becomes an issue for contending ethical and aesthetic discourses since an ethical ideal of self control and a strategy of performing self control are inextricably intertwined 5 In literature and film coolness as a character trait is portrayed as a personal strength as a lack of emotion as an effect of trauma as a mask for suffering or rage as precious behavior or as savvy This wide spectrum is significant artistic productions offer valid insights into contradictions of cultural discourses on affect control 6 American and Japanese cultural productions show that twentieth century notions of coolness hybridize different cultural traditions of affect control Courtship, Marriage and Marriage Breakdown Katie Barclay, Jeffrey Meek, Andrea Thomson, 2019-10-28 This book explores the history of marriage and marriage like relationships across five continents from the seventeenth century to the present day Across fourteen chapters leading marriage scholars examine how the methodologies from the new history of emotions contribute to our understanding of marriage seeking to uncover not only personal feeling but also the political and social implications of emotion They highlight how marriage as an institution has been shaped not just by law and society but also by individual and community choices desires and emotional values Importantly they also emphasize how the history of non traditional and same sex relationships and their emotions have long

played an important role in determining the nature of marriage as an institution and emotional union In doing so this collection allows us to rethink both the past and present of marriage destabilizing a story of a stable institution and opening it up as a site of contest debate and feeling
