What Is Existential Anthropology:

What Is Existential Anthropology? Michael Jackson, Albert Piette, 2015-04-01 What is existential anthropology and how would you define it What has been gained by using existential perspectives in your fieldwork and writing Editors Michael Jackson and Albert Piette each invited anthropologists on both sides of the Atlantic to address these questions and explore how various approaches to the human condition might be brought together on the levels of method and of theory Both editors also bring their own perspective while Jackson has drawn on phenomenology deploying the concepts of intersubjectivity lifeworld experience existential mobility and event Piette has drawn on Heidegger's Dasein analysis and developed a phenomenographical method for the observation and description of human beings in their singularity and ever changing situations *Existential Anthropology* Michael Jackson, 2005 Inspired by existential thought but using ethnographic methods

Jackson explores a variety of compelling topics including 9 11 episodes from the war in Sierra Leone and its aftermath the marginalization of indigenous Australians the application of new technologies mundane forms of ritualization the magical use of language the sociality of violence the prose of suffering and the discourse of human rights Throughout this compelling work Jackson demonstrates that existentialism far from being a philosophy of individual being enables us to explore issues of social existence and coexistence in new ways and to theorise events as the sites of a dynamic interplay between the finite possibilities of the situations in which human beings find themselves and the capacities they yet possess for creating viable forms of social life **Lifeworlds** Michael Jackson, 2012-11-22 Michael Jackson's Lifeworlds is a masterful collection of essays the culmination of a career aimed at understanding the relationship between anthropology and philosophy Seeking the truths that are found in the interstices between examiner and examined world and word and body and mind and taking inspiration from James Dewey Arendt Husserl Sartre Camus and especially Merleau Ponty Jackson creates in these chapters a distinctive anthropological pursuit of existential inquiry More important he buttresses this philosophical approach with committed empirical research Traveling from the Kuranko in Sierra Leone to the Maori in New Zealand to the Warlpiri in Australia Jackson argues that anthropological subjects continually negotiate imaginatively practically and politically their relations with the forces surrounding them and the resources they find in themselves or in solidarity with significant others At the same time that they mirror facets of the larger world they also help shape it Stitching the themes peoples and locales of these essays into a sustained argument for a philosophical anthropology that focuses on the places between Jackson offers a pragmatic understanding of how people act to make their lives more viable to grasp the elusive to counteract external powers and to turn abstract possibilities into embodied truths **Existence in the Details** Albert Piette, 2015-07-29

Between Life and Thought Don Seeman, Devaka Premawardhana, 2024-03-26 Existential anthropology is an approach inspired by existential and phenomenological thought to further our understanding of the human condition Its ethnographic methodology emphasizes embodied experience and focuses on what is at stake for people amid the contingencies struggles

and uncertainties of everyday life While anthropological research on religion abounds there has been little systematic attention to the ways anthropology and religious studies might benefit from better consideration of one another or from the adoption of a shared existential perspective *Between Life and Thought* gathers leading anthropologists and religion scholars including some of existential anthropology's most recognized advocates and thoughtful critics The collection opens with a comprehensive introduction to phenomenology and existentialism in anthropology and religious studies and concludes with an analysis of how existential anthropology might address the long standing problem of constructivism and perennialism in religious studies The chapters altogether present existential anthropology as an especially generative paradigm with which to rethink and remake both anthropology and the academic study of religion A timely and significant intervention across multiple areas of research *Between Life and Thought* is an invaluable source for critically exploring the prospects as well as the limits of an anthropological approach to religion grounded in experiential ethnography and existential thought

The Role of Phenomenology in Existential Anthropology Omar Ibrahim,2020-06-10 Academic Paper from the year 2020 in the subject Pedagogy Theory of Science Anthropology grade 6 University of Bern Institut f r Sozialanthropologie language English abstract The present essay explores the question of how philosophical phenomenology can be integrated into anthropology and especially into existential anthropology Phenomenology will be analyzed in terms of its methods and demands in order to apply them to the field of Existential Anthropology In doing so some points have to be changed which are necessary for the philosophical as well as for the anthropological perspective Philosophical phenomenology is a discipline which can be examined in terms of its tradition its method and its demands There is little point in dealing with the tradition here This is due to two reasons First some positions of the phenomenological thinkers will be introduced in the following chapters anyway An overview of the entire tradition however would lead too far away from the topic Secondly philosophical phenomenology must be distinguished from existentialism Not all phenomenologists such as Scheler or Merleau Ponty for example have dealt with existentialism And not all existentialists such as De Beauvoir or Camus have dealt with phenomenology

The Subject of Sovereignty Gregory Feldman,2023-10-13 Seeking new forms of democracy progressive politics raises a fundamental question what is the alternative to the allegedly coherent self contained liberal subject that represents the project of modernity Exploring the themes of nature race and the divine this book identifies the more realistic alternative in the relational subject a subject that is inseparable from the global field of relations through which it emerges and yet distinct from that field because it lives a life that no one else ever has Recognizing ourselves as such subjects allows us not only to rethink politics but more profoundly to envision sovereignty as the means by which we each rejuvenate ourselves and the polities we constitute with others

Cultural-Existential Psychology Daniel Sullivan,2016-04-07 Cultural psychology and experimental existential psychology are two of the fastest growing movements in social psychology In this book Daniel Sullivan combines both perspectives to present a groundbreaking analysis of culture's role in shaping the psychology of threat experience The first part of the book presents a new theoretical framework guided by three central principles that humans are in a unique existential situation because we possess symbolic consciousness and culture that culture provides psychological protection against threatening experiences but also helps to create them and that interdisciplinary methods are vital to understanding the link between culture and threat In the second part of the book Sullivan presents a novel program of research guided by these principles Focusing on a case study of a traditionalist group of Mennonites in the midwestern United States Sullivan examines the relationship between religion community guilt anxiety and the experience of natural disaster

Written over a thirty year span Michael Lambek s essays in this collection point with definitive force toward a single central truth ethics is intrinsic to social life As he shows through rich ethnographic accounts and multiple theoretical traditions our human condition is at heart an ethical one we may not always be good or just but we are always subject to their criteria Detailing Lambek s trajectory as one anthropologist thinking deeply throughout a career on the nature of ethical life the essays accumulate into a vibrant demonstration of the relevance of ethics as a practice and its crucial importance to ethnography social theory and philosophy Organized chronologically the essays begin among Malagasy speakers on the island of Mayotte and in northwest Madagascar Building from ethnographic accounts there they synthesize Aristotelian notions of practical judgment and virtuous action with Wittgensteinian notions of the ordinariness of ethical life and the

importance of language everyday speech and ritual in order to understand how ethics are lived They illustrate the multiple ways in which ethics informs personhood character and practice explore the centrality of judgment action and irony to ethical life and consider the relation of virtue to value The result is a fully fleshed out picture of ethics as a deeply rooted aspect of the human experience The Bloomsbury Handbook of Popular Music and Youth Culture Andy

in non Western traditions Dilemmas explores some of the most pressing existential problems of our times from climate change political conflict and social injustice to balancing one s own needs against those of others Pushing back against the tendency to think of dilemmas as clear cut binary choices renowned anthropologist Michael Jackson shows us some of the ingenious ways that dilemmas are addressed in non Western thought and oral traditions as well as in Western philosophy Drawing on examples from myth literature and his extensive ethnographic fieldwork in West Africa and Aboriginal Australia each of thirteen chapters examines a particular dilemma and how it is experienced circumvented or reimagined From the struggles of the Aboriginal people of Central Australia for land rights to Walter Benjamin s harrowing journey across the Pyrenees as he fled German occupied France in 1940 from the story of a suburban family in Aotearoa New Zealand adjusting to life in a commune to the dilemmas of migrants from the Global South trying to reconcile their search for a better life with their longing for home Jackson interweaves philosophical reflections insights from his anthropological fieldwork and individual life stories In striking a balance between our contradictory impulses to be both apart from and together with others Jackson makes a case against identitarian essentialism showing us how the oppositional thinking through which we often frame our contemporary dilemmas may be overcome
