Creating Engaging Discussions Jennifer H. Herman,Linda B. Nilson,2023-07-03 If you have ever been apprehensive about initiating classroom discussion fearing silences the domination of a couple of speakers superficial contributions or off topic remarks this book provides strategies for creating a positive learning experience Jennifer H Herman and Linda B Nilson demonstrate how to create the conditions to facilitate deep and meaningful learning as well as to assess the effectiveness of discussions They identify analyze and solve common problems in both classroom and online discussions and in both small and large classes They take a direct practice oriented approach that in acknowledging common challenges provides principles guidance on design examples of activities and techniques and eight detailed case studies These cases demonstrate successful approaches that faculty across disciplines and from a variety of institutions have adopted in their face to face blended or online courses at the undergraduate or graduate level The case authors begin by describing the original pedagogical challenge they faced and explain how they addressed it and assessed the results of their innovation They also offer practical recommendations to readers who may want to try their strategies Intended for faculty this book will be equally valuable for educational developers who can use this resource in their programs and private consultations At the graduate level this book can serve as a text or workshop resource in college teaching courses and teaching assistant development programs The final chapter provides a set of resources and activities including discussion questions on the case studies writing prompts and jigsaw

formats that are equally appropriate for individual study or for use in workshop environments You ll never again have to suffer such a profound silence that as described by a contributor to the book she could hear the crickets chirping outside

Quick Start Guide to Azure Data Factory, Azure Data Lake Server, and Azure Data Warehouse Mark Beckner, 2018 With constantly expanding options such as Azure Data Lake Server ADLS and Azure SQL Data Warehouse ADW how can developers learn the process and components required to successfully move this data Quick Start Guide to Azure Data Factory Azure Data Lake Server and Azure Data Warehouse teaches you the basics of moving data between Azure SQL solutions using Azure Data Factory Discover how to build and deploy each of the components needed to integrate data in the cloud with local SQL databases Mark Beckner s step by step instructions on how to build each component how to test processes and debug and how to track and audit the movement of data will help you to build your own solutions instantly and efficiently This book includes information on configuration development and administration of a fully functional solution and outlines all of the components required for moving data from a local SQL instance through to a fully functional data warehouse with facts and dimensions
