Walled Towns Ralph Adams Cram:

Walled Towns Ralph Adams Cram, 1919 **Walled Towns, by Ralph Adams Cram** Ralph Adams Cram, **The American Discovery of Tradition, 1865-1942** , No Place of Grace T.J. Jackson Lears, 2021-08-26 A new edition of a classic work of American history that eloquently examines the rise of antimodernism at the turn of the twentieth century First published in 1981 T J Jackson Lears s No Place of Grace is a landmark book in American studies and American history acclaimed for both its rigorous research and the deft fluidity of its prose A study of responses to the emergent culture of corporate capitalism at the turn of the twentieth century No Place of Grace charts the development of contemporary consumer society through the embrace of antimodernism the effort among middle and upper class Americans to recapture feelings of authentic experience Rather than offer true resistance to the increasingly corporatized bureaucracy of the time however antimodernism helped accommodate Americans to the new order it was therapeutic rather than oppositional a striking forerunner to today s self help culture And yet antimodernism contributed a new dynamic as well an eloquent edge of protest as Lears puts it which is evident even today in anticonsumerism sustainable living and other practices This new edition with a lively and discerning foreword by Jennifer Ratner Rosenhagen celebrates the fortieth anniversary of this singular work of history The Christian Century , 1921 The Builder , 1920 **The Secret Springs** Claude Fayette Bragdon, 2005-11-01 Originally published London Andrews Dakers Ltd 1917 **On Politics** H. L. Mencken, 2006-10-02 These seventy political pieces from the 1920s and 1930s are drawn from Mencken s famous Monday columns in the Baltimore Evening Sun *The Bookseller, Newsdealer and Stationer* , 1919 **Christian Register and Boston Observer** , 1919 **Ghost Storeys** Cameron Macdonell, 2017-07-04 Most studies of modern Gothic media assume that beyond the 1830s modern Gothic architecture and literature had very little in common The work of Ralph Adams Cram 1863 1942 America s most prolific Gothic Revival architect and an author of ghost stories challenges that assumption The first interdisciplinary study of Cram s aesthetics Cameron Macdonell s Ghost Storeys deconstructs the boundaries of Gothic architecture and literature through a microhistory of St Mary s Anglican Church in Walkerville Ontario Focusing on Cram and the church s main patron Edward Walker 1851 1915 Macdonell explores the intricate intersections of Gothic aesthetics architectural ethics literature theology cultural values and community construction in an Edwardian era company town When Walker commissioned the church he believed that its economy of salvation could save him from the syphilis that afflicted his body and stained his soul However while implementing that economy Cram whose architectural theory social commentary and ghost stories were pessimistic about reviving the Gothic in the modern world also created an architecture haunted by the sickness of humanity Painstakingly researched and lavishly illustrated Ghost Storeys redefines the allegorical relationship between a marginalized church and the Gothic Revival movement as a global interdisciplinary phenomenon **Garden Cities and Town Planning** , 1923 **Communion of Radicals** Jonathan McGregor, 2021-11-03 Popular perceptions of

American writers as either godless radicals or God fearing reactionaries overlook a vital tradition of Christian leftist thought and creative work In *Communion of Radicals* Jonathan McGregor offers the first literary history of theologically conservative writers who embraced political radicalism as their reverence for tradition impelled them to work for social justice Challenging recent accounts that examine twentieth century American literature against the backdrop of the rising Religious Right *Communion of Radicals* uncovers a different literary lineage in which allegiance to religious tradition fostered dedication to a more just future From the Gilded Age to the Great Depression to the civil rights movement traditional faith empowered the rebellious writing of socialists anarchists and Catholic personalists such as Vida Scudder Dorothy Day Claude McKay F O Matthiessen and W H Auden By recovering their strain of traditioned radicalism McGregor shows how strong faith in the past can fuel the struggle for an equitable future As Christian socialists Scudder and Ralph Adams Cram envisioned their movement for beloved community as a modern version of medieval monasticism Day and the Catholic Workers followed the fourteenth century example of St Francis when they lived and wrote among the disaffected souls on the Bowery during the Great Depression Tennessee s Fellowship of Southern Churchmen argued for a socialist and antiracist understanding of the notion of the South and the Agrarian tradition popularized by James McBride Dabbs Walker Percy and Wendell Berry Agrarian roots flowered into creative expressions encompassing the queer and Black medievalist poetry of Auden and McKay respectively Matthiessen s Catholic socialist interpretation of the American Renaissance and the genteel anarchism of Percy s southern comic novels Imaginative writing enabled these Christian leftists to commune with the past and with each other driving their radical efforts in the present *Communion of Radicals* chronicles a literary Christian left that unites deeply traditional faith with radicalism and offers a usable past that disrupts perceived alignments of religion and politics

Finding Lights in a Dark Age Chris Smaje, 2025-11-11 How we can meet the challenges of our age by moving away from the political and economic philosophies of both the left and right to a more equitable re organization of society economy land and food production driven by the local community rather than a central government Today society and government are still asking what our country can yield and in what quantity They do so because in a sense we are still living in conquest based societies Agrarian thinker Chris Smaje opens this book by drawing an arresting modern parallel to Viking raiding trading and enslaving societies and the Ragnarok they faced then of dramatic climate change and societal collapse So to meet these modern crises Chris asks us to look beyond the current discourse of capitalism versus chaos and indeed the dualism of state versus market and the state with the market both of which has failed us Instead Chris explores a world where we live slower lives more immersed in local ecologies Where our present Viking age has inflicted a thorough alienation from place and local livelihood Chris proposes other models of collective organization where land and capital are seen as a common good that involves a widespread and secure redistribution These ideas are the basic principles associated with distributism broadly that issues should be dealt with at the most immediate or local level feasible and governance wherever

possible should be bottom up There should also be a moral economy founded in ideals of justice Work and production should rest on commitments struck in a community rather than deals in a market There should be a concept of shared common good of what life is for Ultimately we should build a sense of future possibility around local ecological societies dedicated to human and ecological wellbeing Much of the global damage to the environment has arisen not because people were there in the landscape but because they weren't It's time to hospice modernity and build a green Earth rising In this book Chris discusses what this society and landscape might look like in the near future and longer term

Religion, Art, and Money Peter W. Williams, 2016-02-24 This cultural history of mainline Protestantism and American cities most notably New York City focuses on wealthy urban Episcopalians and the influential ways they used their money Peter W Williams argues that such Episcopalians many of them the country's most successful industrialists and financiers left a deep and lasting mark on American urban culture Their sense of public responsibility derived from a sacramental theology that gave credit to the material realm as a vehicle for religious experience and moral formation and they came to be distinguished by their participation in major aesthetic and social welfare endeavors Williams traces how the church helped transmit a European inflected artistic patronage that was adapted to the American scene by clergy and laity intent upon providing moral and aesthetic leadership for a society in flux Episcopal influence is most visible today in the churches cathedrals and elite boarding schools that stand in many cities and other locations but Episcopalians also provided major support to the formation of stellar art collections the performing arts and the Arts and Crafts movement Williams argues that Episcopalians thus helped smooth the way for acceptance of materiality in religious culture in a previously iconoclastic Puritan influenced society
